## TO ANNEX CANADA TO UNITED STATES

**Nationalist Leader of Quebec Advocates That Step for the Dominion.**

### FOUR THINGS ARE POSSIBLE

**But of All of Them Bourassa Favors With Union With America in Speech Made Yesterday. The Conditions.**

Antigonish, N. S., Aug. 19.—Annexation of Canada to the United States was advocated today in n ddress by Henri Bourssa, M. P., the nationalist leader of Quebec, before the summer school of science of St. Francis Xavier college. The speaker dealt at length with the four possible destines of Canada, namely: Remaining in the position in which she is at present, which he regarded as very improbable; imperial federation, which would be an unwieldly and unworkable condition; annexation to the United States and independence.

"Imperial federation means an imperial council with a preponderant British influence," said Mr. Bourassa. "Conditions today in Canada make for annexation rather than for imperial federation. The penetrative influence of trade by rail and coastal lines, the mental propensity of the two peoples living under the same or similar conditions, industrial and social, the constant intercommunication of Canadians and Americans are all powerful factors making for annexation."

### BIG AERO MEET SOON.

**Harvard-Boston Contest Will Likely Eclipse Others.**

Boston, Mass., Aug. 19.—No aviation meet in this country, and probably not yet held in the world has had such a representative list of aviators as is assured the Harvard Boston Aero Meet, according to the list of entrants to date, announced tonight. The entry list is truly international and includes 17 individual aviators and 11 types of air navigating machines. The latter embrace the three principal standard types, the monoplane, biplane and triplane. It will be the first time the latter type has been exhibited in this country. There is certain to be keen competition for the $40,000 hung up as prizes in a dozen events.

The entrants follow: Walter Brookins and Arthur Johnstone, Wright biplane; Glenn S. Curtiss and Charles F. Willard, Curtiss biplane; M. Didior Masson, Vendome aero-plane; A. V. Roe, Roe triplane; J. Graham White, Farman biplane and Bleriot monoplane; William M. Hillyard, Herring-Burgess biplane; J. M. Allias, Harvard biplane; Ernest P. Lincoln, .....; Clifford B. Harmon .....; Captain Thomas Baldwin, .....; Jacques de Lesseps, .....; and others.

The contests will be held September 3rd until September 13th unless bad weather should cause some of the events to go over for a few days.

### COLORED TRAINING SCHOOL

**Faculty of New Regligious Institution at Durham Announced.**

Durham, N. C., Aug. 19.—With the close of the Summer school of the National Religious training School and Chautauqua this week, announcement is made by President James E. Shepard that the regular term will begin October 12th with the following heads of departments.

Religious training, Professor C. G. O'Kelley, former president of Slater Industrial School, Winston-Salem, N. C., elected to the vice presidency of the National Religious Training School; Theological Department, Rev. John Henry Moore, B. A., B. T. H., of Shaw University; Academic Department Miss Florence Jackson, B. A., of Fisk University; Commercial department, Professor T. P. Smith, and Musical Department, Professor F. A. Clark.

The matron is Miss C. S. Rhone. Mrs. C. G. O'Kelley, is in charge of the dining hall.

### TAFT AND TEDDY.

**No Discussion or Reported Rupture Between the Two Men.**

Beverly, Mass., Aug. 19.—No disposition has been shown here as yet to make an informal unofficial reply to the stories that recently have come from Oyster Bay telling of a serious break between President Taft and Theodore Roosevelt. The President and Mr. Norton absolutely refuse to discuss the matter either officially or unofficially.

There is a general belief in Beverly, however, that Col. Roosevelt's attitude, if it has been correctly reported, is based on an entire misapprehension and misunderstanding of the facts. There is also a feeling here that a better feeling will soon result. This may be based upon the fact that Lloyd Griscom, president of the New York committee, is coming to Beverly next week. It is also said here that William Loeb, Jr., will be an early visitor at the Summer capital.

Washington, Aug. 19.—The population of Detroit, Mich., is 465,766, an increase of 180,062, or 63 per cent., as compared with 285,704 in 1900.

## THREE OFFICIALS ARE UNDER ARREST

**Three Former Illinois Central Executives in Alleged Fraud Schemes.**

### DEATH SAVED RAWN DISGRACE

**Road Alleged to Have Lost $1,500,000 Through Chain of Thefts—Harriman, Ewing and Taylor Are Defendants.**

Chicago, Aug. 19.—Three former executive officers of the Illinois Central Railroad Company were arrested today on warrants in connection with the alleged frauds by means of which the railroad was defrauded, it is said, of $1,500,000.

The men arrested were: Frank B. Harriman, formerly general manager of the road; Charles L. Ewing, formerly manager of lines north of the Ohio river; John M. Taylor, formerly general storekeeper of the road.

The warrants sworn to by J. T. Harahan, president of the Illinois Central Railroad, charge the three men with conspiracy to cheat and defraud the railroad by false pretenses and with operating a confidence game. Harriman and Ewing were taken to the Harrison street police station. Their bonds of $10,000 each were signed by a professional bondsman.

The allegations in the graft ease are startling. The investigat.on began a year ago. It reached a crisis last Spring when President Harriman began action sto recover sums said to aggregate more than $1,000,000, alleged to have been taken from the road by car repair companies in connivance with high officials of the road, Harriman, Ewing and Taylor and many others of less magnitude, resigned their positions.

Much of the money is said to have been repaid privately. The name of Ira G. Rawn, who resigned the vice presidency of the Illinois Central road to become President of the Monon system, and who was found dead recently at his home with a bullet-wound in his breast was brought into the scandal.

Murray Nelson, Jr., attorney for the Illinois Central, today said that Rawn's death headed off warrants which would have been issued for him.

Private detectives working under the direction of President Harahan are said to have unearthed frauds other than those connected with padded car repair bills. These are said to involve the diverting of $1,000,000 or more for new construction funds. The investigators say they have procured several confessions, which will be used in their attempt to fasten guilt on culpable persons.

Today's developments bring the name of Ewing into the case for the first time.

"I have never been approached by any attorney or detective engaged in this case," said Mr. Harriman.

"I am perfectly innocent of any and all charges made against me. I will admit that I have been awaiting some such action as this in order to refute the charges. I am glad of the opportunity to clear my name."

An official of the Illinois Central tonight intimated that other warrants would follow those issued.

Staunton, Va., Aug. 19.—Interest was revived in the threatening cave-ins of the earth here today when a decided depression appeared in the postoffice yard. It is similar to the one which was first noticed. Postmaster Allen is sounding over the depression and has gone through six feet of soft earth.

## *Moissant's Flight From Paris Marks Him Great Aviator*

### REMARKABLE FLIGHT.

**Great Record Made by Chicago Architect Across Continent.**

London, Aug. 19.—By completing his flight from Paris to within 25 miles of London town John Moissant, the Chicago architect, made a most remarkable record. He was unknown almost among aviators and had never been in England until he flew across the channel. In the trip from Paris he covered a total distance of 296 miles and at the same time carried as a passenger his mechanic. He made but five flights before his sensational international sail. Moissant is a little man, five feet three inches tall and weighing 135 pounds, with keen brown eyes. His passenger was a burly French mechanic, weighing 175 pounds, who says he feels quite at home with his employer in the air. Moissant in 35 years of age and an architect by profession. He came to Europe on a pleasure trip, took up aviation and built two aeroplanes. His present machine is one of the latest Blerios type, with a Gnome engine. Two accidents to his monoplane yesterday partially wrecked the machine at Chatham, England.

Birmingham, Eng., Aug. 19.—John B. Moissant, the Chicago aviator, today repaired his monoplane, which was partially wrecked in a brick field near Rainham, Ken., Wednesday after his perilous flight with a passenger across the English channel. The American was anxious to continue on the last leg of his journey from Paris to London but was prevented by thestiff gale which blew all day. Late tonight Moissant announced that he would not attempt to continue his flight to the English capital until daylight.

## JAPAN LIKELY TO RULE KOREA

**State Department Awaiting Official Information—American Government Has Made No Protest. Treaties Affected.**

Washington, Aug. 19.—Dispatches are expected hourly at the State Department from the Orient telling of the announcement of an arrangement for Japan to take over the Empire of Korea, forecasted by Ambassador O'Brien in a dispatch to the department yesterday from Tokio. The Associated Press dispatches describing the unusual activity of officials in Korea and of the warships controlling the Korean coast are interpreted as substantiating the information conveyed to the department by the American ambassador.

The American government thus far has made no protest concerning Japanese domination in Korea. Following the course taken by other powers, no protest was made to the article of the Portsmouth peace treaty between Japan and Russia which Japan probably regards as the latest recognition of its right to take over Korea. This article provided that "the Imperial Russian Government, acknowledging that Japan possesses in Korea paramount, political, military and economical interests, engages neither to obstruct nor interefere with the measures of guidance and protection and control which the Imperial government of Japan may find it necessary to take in Korea."

The United States, however, has a number of treaties with Korea which would be affected by the taking over of the country by Japan and which would require Japan to notify the American government of her jurisdiction over the little empire. One of the most important of these is a commercial treaty whereby the Korean Government is prevented from collecting more than ten per cent. ad valorem duty on articles imported from the United States, except on luxuries, where the maximum duty is fixed at 30 per cent. Importation of American articles to Japan is on a far less advantageous basis.

Washington, Aug. 19.—In response to inquiries from Washington Ambassador O'Brien today informed the State Department that contributions from the American Red Cross for the relief of the sufferers from the flood calamities in Japan would be received gratefully by that country. It is not unlikely that a call for contributions will be issued by the Red Cross.

The Chadwick Farm, which is to be sold on August 23rd, 10:30 A. M., at auction is in high state of cultivation. Tile drained and overhead irrigated, one mile from city. au 20 tf

## ROOSEVELT TO THE NEGROES

**Some Wholesome Doctrine Preached to Colored Business League—Reform and Reform Ideas—Some Ideals for the Race.**

New York, Aug. 19.—Col. Roosevelt, former President of the United States, speaking today before 1,100 delegates to the National Negro Business Men's League, who cheered him and pledged him the support of the negro electorate for a possible third term, counseled his hearers to make the most of their opportunities.

"The white man of the South," said Mr. Roosevelt, "is the vital man to have sympathy with the negro. When your neighbors like and respect you, you have won your battle. The white man of the North does his worst work in interfering between the two people's of the South, and his best work when he improves their relations.

"I would not slur over the injustice with which good colored men are treated, but I feel that the really substantial way of conquering injustice is to train your people so that the white man will, willy nilly, recognize in his colored neighbor a desirable neighbor. Every down-at-the-heel, ramshackle negro cabin is not only bad for the people who live in it, but is a reflection on the race.

"The man who lives in a n'er-do-well life of idleness is doing not only ill to himself, but to his people. I believe in this league. As I wrote five years ago, when I was President, I believe in it, because it is out of politics. You also stimulate among your people principles of business enterprise. That is well. You recognize that you should build a firm foundation before you can erect your superstructure.

"In Mabasa we were shown much courtesy by an American colored man, who was serving there as a doctor. At a government experiment station I found a Jamaica negro in charge. An abyss of nearly ten thousand years seemed to separate these two men from the naked savages I had seen—yet the abyss was not more than 200 years. In your advance there have been haltings and shortcomings, on the part of the whites as well as on your part. Nevertheless, there has been progress.

"It takes some time to make a reformer think that an outlook is not one of unalloyed gloom. You sometimes see a reformer who thinks if he says a good word about anything he will be set down as a hopeless reactionary.

"You colored men and women must set your faces like flint against those who would preach to you of the gospel of hate, envy and bitterness. Realize that the only way to help your race is not by preaching vindictiveness and hatred but by leading your people up to prosperity through good citizenship."

## SPEED RACE ON AT BRIGHTON

**Track Record for One Hour Broken by Stearns—Contestants in Auto Events—Matheson Car Crashed Through Fence.**

Brighton Beach, Motordome, N. Y., Aug. 19.—Under the glare of the electric lights, which shone white on the high cement banked turns, drivers took their lives in their hands on Brighton Beach Motordome again tonight in another 24-hour automobile race under the auspices of the Motor Racing Association.

At the end of the 89 mile the Matheson car, leading, crashed through the fence near the paddock turn and the car was temporarily put out of commission. No one was injured. Because of the accident the Stearns car took the lead. The Matheson, after eleven minutes delay for repairs resumed the race.

Seven of the nine cars entered shot away from the mark at 8:30 o'clock, 30 minutes later than the time scheduled. The Stearns car, with Cyrus Patschgre at the wheel, got away in the lead and finished the first mile in 1:14 3-5. The early morning rain made the track almost perfect for good racing as there was no dust raised as the cars tore around the one mile elipse.

The track record for one hour was broken in the first 60 minutes of the race by the Stearns, which covered 57 miles. The best previous record on the track, 56 miles, was made by the Buick and Fiat cars last October.

The contesting cars with their drivers follow:

Allen Kingston car, Noel Treckas; Marion car, Wally Owen; Houpt-Rockwell car, Stan Martin; Stearns car, Cyrus Patchske; Cole car, Bill Endicott; Midland car, L. Anderson; Mathewson car, Charles Basle.

### CHOLERA SITUATION IN ITALY.

**Will be Discussed at Meeting of Cabinet Ministers.**

Rome, Aug. 19.—Premier Luzzatti, today arrived in Rome from Turin for the purpose of provoking a meeting of the cabinet ministers at which the cholera situation in Apulia was thoroughly discussed. Apulia comprises the provinces of Bari Foggia and Lecca in southwestern Italy. Measures to combat and overcome the epidemic were approved at the councils and the premier learned with satisfaction since doctors had been sent to the stricken district, they had fought the spread of the disease which now seems to be confined to the few places where it first broke out.

## M'MURRAY TELLS OF INDIAN DEALS

**Secured Enormous Fees For His Services and Held Many Contracts.**

### HAD CHARGE THEIR AFFAIRS

**Questioned Closely As to His Authority Among the Red Men—Thousands of Dollars Were Paid Over to Him Yearly.**

Sulphur, Okla., Aug. 19.—It was brought out today in the testimony of J. F. McMurray before the Congressional Committee investigating Indian land affairs that he held as many as half a dozen contracts with the Indians for legal services all covering the period of time.

Mr. McMurray testified that for general services he had two contracts with the Chickasaws at $5,000 a year, two with the Choctaws at $5,000 a year each, and another contract for special services at a fee of $15,000, only $3,000 of which was paid, a yearly expense allowance of $2,700 under one contract and other general expenses allowances amounting to $180,000. All of this money was in addition to the $750,000 allowed his law firm as a contingent fee in the citizenship cases and in addition also to the contracts by which he now seeks to obtain 10 per cent., or $3,000,000, as a contingent fee on the sale of $30,000,000 worth of asphalt and coal lands.

"How is it that while having so many contracts, to represent the Indians generally on regular salaries, you got a special contract on a contingen fee basis every time any special case bobbed up?" asked Representative E. W. Saunders, of Virginia, a member of the committee.

McMurray replied that he had been identified with the Indians for so many years that they had come to look to him to take care of their legal affairs. He said hardly an act had been passed by their tribal councils without the sanction of his legal firm. Many of the expense allowances, the witness said, had been collected by him without the knowledge of the Department of the Interior. Also he said, many acts passed by the tribal legislature were not submitted to the President of the United States as it was asserted, was required.

Asked by Representative Miller, of Minnesota, whether his work had not tended to lead the Indians away from a close relationship with the government, Mr. McMurray said he always had done his utmost to bring the Indians and the government together.

### WANT THE RECORDS

**Chicago Physician Was Nearly in Trouble in Mexico.**

Washington, Aug. 19.—Application retary of State Knox to submit State for a writ of mandamus to compel Sec- Department records concerning the case of Dr. James Buckley, of Chicago, who says he was refused help at the American embassy at Mexico when he was threatened with imprisonment was filed here today in the District Supreme Court.

The controversy is between Dr. Buckley and James G. Bailey, in charge of the American embassy last December. The diplomatist is charged with having ignored an appeal for aid made by the doctor, who was in danger of arrest on a charge of having administered cocaine, in defiance of Mexican law, to a patient suffering with appendicitis. The patient declared that the use of the drug was against this will.

Fearing arrest should his patient die, Dr. Buckley says he sent an urgent telegram to the embassy, which, he claims Mr. Bailey ignored. Luckily for him his patient recovered.

When he sought an explanation from Mr. Bailey, the physician says he was told no attention was paid to such complaints until the applicant for help was already in juail.

### GAYNOR NO PLOT VICTIM.

**Policeman Given Hearing on Serious Charge and Dismissed.**

New York, Aug. 19.—The "plot" against Mayor Gaynor's life involving Policeman Joseph P. Hock blew up this afternoon when, after a hearing, the case was practically dismissed by Deputy Police Commissioner Walsh for lack of evidence.

Hock was charged by two small girls with being intoxicated the night before the Mayor was shot and was remarking vindictively that the Mayor would "get his" either on his departure for Europe or on his return. Neither of the girls could identify Hock as the man with whom they said they had talked.

### FIGHT MAY BE FATAL.

**Six-Round Bout in Philadelphia With Ill Consequences.**

Philadelphia, Aug. 19.—In the second round of a six-round bout of the Frankford Athletic Club here tonight Freddy Castor was sent to the mat by a terrific swing to the jaw. He was taken to the Frankford hospital unconscious and remains in that condition. His opponent Spike Sullivan, his seconds and manager of the club, surrendered themselves to the police.

## TAFT SPENDS DAY AMONG KIN FOLKS

**Goes With Governor Draper to Homes and Haunts of His Ancestors.**

### FORGETS WORRY OF POLITICS

**Greeted Scores of Tafts and Torreys in Massachusetts State—Discovered He is Related to Both Aldrich and Draper.**

Beverly, Mass., Aug. 19.—Forgetting for the moment the troubles and worries of politics and politicians, President Taft spent the greater part of the day in the homes and haunts of his ancestors. The President rummaged into his own family history and met scores of relatives. Some were so remote as hardly to be counted, but they were all Tafts and Torreys and the most distinguished member of the family seemed glad to be able to shake the hand of all.

There were long Tafts, and short Tafts, big Tafts and little Tafts, blonds, brunette and red haired. "We had all sorts in the family," laughed the President.

It was over at Mendon, and Bridge and that vicinity that the Tafts settled way back in 1680. Robert Taft was the first of the Tafts to come over from England. Then in direct line of descent the generations lead down to the President as follows: Joseph Taft, Peter Taft, Aaron Taft, Peter Rawson Taft, Alfonso Taft, and William Howard Taft. The President's son, Robert, is the eighth generation.

In the geneological analysis that the day brought forth it was discovered that through an ancient strain the President is related to Senator Nelson Wilmarth Aldrich, of Rhode Island; that Secretary Charles Dyer Norton is also related to the Senator from Rhode Island and that the President is related to Governor Draper, of Massachusetts.

It was as the guests of Governor Draper that the President made his pilgrimage tonight. He spent last night at the Governor's home at Hopedale and started in a drizzling rain on the ancestral trip this morning. En route Mr. Taft stopped for an hour to inspect the big cotton machinery manufacturing plant at Hopedale and the model tenements that surround it. The men in the factory gave him three cheers.

It was while the President stood inspecting the tablet erected at Founders Park, in Mendon, that the most interesting episode of the day occurred. No one in the town seemed to know Mr. Taft was coming, but his presence soon was noised abroad and Tafts came from all directions. Mrs. Clarence Taft was one of the first to arrive and when she met the President she told him proudly that she was the mother of the youngest Taft in the vicinity, a son two weeks old. She also explained that he had not been given a name and it was insisted that the President should select one. He agreed at once and the youngster was borne to the scene.

"I name him Robert" said the President "and I hope he grows to be a great comfort to his mother and father." The baby is said to be a fifth cousin of the President.

The name of the original Robert Taft is engraved on the monument as one of the founders of that place, com-Town." Robert brought six stalwart sons with him from England.

From Mendon Park the President went to the old burying ground and was shown the ancient head pieces that mark the graves of a large number of his ancestors. Then he visited the old church where they worshiped and the spot where Robert Taft built his home in 1680. All marks of the house are gone and the lot that surrounded it is now an orchard. The next spot of interest was the little home of Miss Sarah Taft, a delightful white haired lady, who was completely taken by surprise when the President's big automobile stopped in front of her door and he and the governor of the commonwealth alighted. Miss Taft was not expecting visitors and living quite alone, she kept her distinguished guests waiting with many apologies until she could change her frock. Then she extended a most hospitable welcome.

After lunching at Governor Draper's home the President returned to Beverly by automobile.

### TROOPS TO FIGHT FIRE

**Five Companies Sent to Montana to Prevent Loss.**

Washington, Aug. 19.—Gen. Wood, chief of staff of the army, today sent orders for the dispatch of five companies of the 14th Infantry to the Glacier National Park, and the Black Foot and Flat Head Indian reservations, to fight forest fires raging there. Two of these companies are now on their way to posts near Helena, Mont. The three other companies are at the camp of instruction at American Lake. It was stated at the War Department that there was no more troops available for such service in Montana and Washing at the present time. . .

## BATTLED TO A STANDSTILL

Neither Sailors nor Tobacconists Could Score in Ten Innings of a Pitchers' Battle—Sensational Plays.

Results Yesterday.
Wilmington 0; Wilson 0; ten innings.
Fayetteville-Goldsboro, rain.
Rocky Mount-Raleigh, rain.

Where They Play Today.
Raleigh at Rocky Mount.
Fayetteville at Goldsboro.
Wilson at Wilmington.

For ten inning the Sailors and Tobacconists battled at League Park yesterday, neither side being able to put a run across, and the game was called at the end of the tenth on account of darkness caused by a heavy cloud, from which the rain came down in torrents as son as the crowds were safely aboard the cars.

It was a pitchers' battle, and necessarily did not have many sensational features, as such games are never really of an interesting nature. Hanks for the locals allowed five hits to Lane's six, and granted one free pass while Lane did nothing in this line.

The details which show up one or two interesting situations, follow: Jacobs the first man up, was safe on a hit to the infield. Prim fanned, and Miller was safe on first forcing Jacobs at second, Hearne popped to Mills.

In Wilmington's half, after Hoffman was out on first, Cooper sent one down third base foul line nearly to the fence, but Cooper was out on third by fielder's choice, Orth hitting one to short forcing Tydeman at second. There was nothing done on either side in the second and third frames, and in the fourth after two men were down Hearne singled to right, but Sheridan was out on first. Cooper started the last half with a single to left, Tydeman was out for fouling third strike, and Cooper was caught napping off first, Orth flying out to short.

In the fifth after Benbow had skied to Orth, Armstrong singled to second, and went to second when Dubs threw wild to first. Phelan was out on first, advancing Armstrong to third, but Lane popped to Mils.

In Wimington's half after Doak had died on first, and Mills had struck at three, Kite singled to left, but Dubbs was out on first, retiring the side. In the sixth Jacobs flew to center, Prim was out to first unassisted, after which Miller pounded it to the flag pole for two bases, and Hearne fouled to Cooper.

In the last half Wilmington was out in order.

The visitors were out in quick order in the seventh, after which Tydeman sent a single to center, and stole second. Orth hit to pitcher, and was safe on first on fielder's choice, Tydeman being out on third. Orth purloined second, but Doak expired on first, and Mills was out when Benbow robbed him of a hit that would have won the game, by a sensational catch.

Both sides were out in one, two, three order in the eighth, and in the first of the ninth, after two men were down, Hearne was given four balls, but Sheridan was out on first. In the last half, after Hoffman had gasped on first, Cooper placed his third hit to second, but Tydeman couldn't find them, and Cooper was caught in the attempt to annex second.

In the tenth Benbow flew to center, Armstrong singled to center, and went to third when Phelan got two bases on an error of Orth. It looked like a score, but Lane flew to Doak, and Jacobs to Dubbs ending the agony. In the last half after Orth had skied to left, Doak singled to center, but when Mills hit to short, the side was retired by a double play, short to second to first. Thus it ended.

Doak started in to win the game in the tenth frame, but didn't get the necessary backing.

We would like to inform that Raleigh Times dopester that our scorer is still holding his job.

That Benbow saved his team from defeat when he speared Mills' hot liner over second in the seventh.

Brother Taylor it would be a genuine pleasure to hear from you daily, instead of only on such occasions as last Tuesday.

Dubbsy D——— made his first error in quite awhile, but made it up by fairly eating those near-hits alive all through the game.

That cloud came up yesterday from towards the Tobacco town, and we were wondering whether "Pap" didn't order it by wireless.

Cooper made one of the prettiest plays of the game when he put Armstrong's grounder to first in time to catch the runner, in the second inning.

That Tydeman continues to annex an extra base every time he gets on first, and the scorer and press men have got in the habit of putting it down just as soon as he gets to first.

Smiling Al came near losing the game in the final session, when he threw wild on Phelan's hit allowing him to go to second on an easy put out, while Armstrong marathoned to the third station.

Rocky Mount has our heart felt sympathy. Those Birds nadn't scored anything like a hit when the rain came down yesterday and the game was called with two tallies to the credit of the Railroaders.

Again we must chronicle the fact that that same Cooper is fast becoming the hoodoo of all the pitchers around the league. He fell onto those curves of Lane's as hungrily as a tramp attacking a free lunch counter, and when the smoke cleared, he was credited with a peach two bagger and two beautiful singles as well as a long fly to left for the other time up.

"The Champions will worry through and win the penant with their three stars—Lane, Stewart and the "thousand dollar beauty, Bunn Hearne." Thus saith the Wilson "Dust man." We are suspicious that you've quite a lot of worry coming your way if that is the way you are counting your chicks, especially if Bunny pulls off many such tragedies as he did Thursday.

### RAIN AT ROCKY MOUNT.

Railroaders Winning When Rain Interferred with Raleigh Game.

(Special Star Telegram.)

Rocky Mount, N. C., Aug. 19.—Rain saved Raleigh probable defeat this afternoon when the game was called at the end of three and a half innings on account of rain. The score was two to nothing in favor of the Railroaders. Turner gave up three hits in the third inning and two men made the circuit. The weather was threatening throughout. A doubleheader will be played tomorrow, first game begining at three o'clock. Score:

Rocky Mount .. .. .. .002 x—2; 3; 2
Raleigh .. .. .. .. .. .000 0—0; 0; 0

# IN THE NATIONAL CAMPAIGN

**Attitude of Theodore Roosevelt Source of Speculation—Democratic Position on National Questions—Aldrich at Headquarters.**

(By Clyde H. Taverner.)

Kansas City, Mo., Aug. 20.—Thousands of Republicans throughout the land, and in the insurgent districts particularly, are becoming impatient at Roosevelt's apparent reluctance to state exactly where he stands on the subject of insurgency.

The result is that Theodore Roosevelt is not quite as popular an ex-President as he was immediately following his return from Africa.

This is an unbiased conviction that has been forced upon me after having traveled from Washington to the Pacific coast and back. I have talked with hundreds of persons of all classes and have sojourned especially in the insurgent districts.

Roosevelt is not unpopular. I do not wish to convey that impression. He still has a large following.

But many of Roosevelt's admirers seem to feel the ex-President is waiting to see which faction of his party is the strongest, instead of making a decision on the basis of which faction is morally right.

If Roosevelt acts quickly and with clear-cut candor he may prevent further inroads on his popularity. If he does not so act, the movement which he is given credit for having started will march on without him, with LaFollette or some other genuine progressive at the head.

Word has come into the West via the Associated Press that Roosevelt will campaign for the re-election of Senator Henry Cabot Lodge, of Massachusetts, who declares the ultimate consumer is a myth.

Roosevelt's admirers are gulping hard over this information. They have been educated by LaFollette and other genuine progressives to know Lodge as a tool of Aldrich and the special interests.

They also have the word of no less authority than Representative Butler Ames, a Republican insurgent of Lodge's own State of Massachusetts, that the political machine of Senator Lodge "is backed by all the large corporations" and is used to "advance the selfish financial schemes of the large railroads, banking and manufacturing interests he (Lodge) serves in the halls of Congress."

Roosevelt's great popularity has been largely due to the belief of the people that he was the enemy of such corporation servers as Lodge.

Therefore all over the land the ex-President's friends are asking: "How can Roosevelt conscientiously speak for a man like Lodge, when he does nothing for men like LaFollette?"

The mere asking of this question has the tendency of placing Roosevelt on the defensive. And it is bad for any politician, great or small, to be on the defensive.

Republican spellbinders have intimated the Democratic party stands for free trade. Absolute free trade is impractical with the United States. Every country in the world, including Great Britain, levies some tariff and this country must always do so.

The Democratic position on the subject is substantially as follows:

First: The government should never collect one penny more of revenue than necessary to administer its affairs with rigid economy.

Second: The lowest rate that will yield the greatest amount of revenue should be imposed.

Third: Luxuries should always bear the highest revenue duties.

Fourth: Experience has vindicated the wisdom of ad valorem duties as being the correct practice.

Fifth: Revenue duties should be laid so as to operate with equality throughout the Union, discriminating neither for nor against any class or section.

Sixth: Absolute necessities should go on the free list.

Seventh: There should be imposed a revenue duty upon practically all imports, with certain exceptions. These exceptions should be determined by the test:

Imports coming in competition with trust-controlled products should be placed on the free list, and articles of absolute necessity should be imported free of duty.

Quite an important conference was held on J. Pierpont Morgan's yacht "Corsair" off Newport, R. I., recently.

It is understood that Morgan's guests included Senator Nelson W. Aldrich, Senator George P. Wetmore, who had just returned from seeing President Taft at Beverly, and Chas. D. Norton, the President's secretary.

Morgan is known to take the view that Aldrich's promised retirement from the Senate would be a "National calamity," and it is believed he urged Aldrich to reconsider the matter.

Politicians in Rhode Island have never believed Aldrich would retire at the end of this term, as he announced last Spring. It was not expected that Wall street would consent to lose its most able representative in the Senate.

President Taft asserts that in the Payne-Aldrich bill necessities were "favored" at the expense of luxuries. Here are a few comparisons which show how the Republicans really "favored" the necessities: The necessity raw sugar was taxed 65 per cent., while the luxury diamonds, cut but not set, were taxed only 10 per cent. Such necessities as blankets, flannels, women's dress goods, shawls, knit goods, wearing apparel and other woolen manufactures, were made to pay a tax of from 80 to 140 per cent., while the luxury automobiles were taxed but 45 per cent.

Even the people of far-away Alaska have rebelled at Republican standpatism. James Wickersham, insurgent Republican of Juneau, has just been re-elected to Congress over Edward Orr, the Taft-Guggenheim candidate.

# FOR A BETTER CITIZENSHIP

**Is The Detective A Help or Hinderance in The Enforcement of the Prohibition Law.—An Answer.**

Today among the citizens of this State, it is a mooted question as to whether the detective employed by individuals is a help or a hindrance to the enforcement of the prohibition law. Having had some experience and much observation on this point in the last three years, I have reached pronounced convictions and feel that I must give them to our temperance workers over the State.

I have no purpose to discourage the use of detectives when employed by the city, county or state government; in fact I believe that if any municipality or county finds that the regular executive force is not sufficient to enforce the prohibition law or any other law, that it is the business of that government to employ the services of detectives or to institute some other method to aid the prevailing method, whereby the violators of all laws may be apprehended. The fact that we have an executive branch of government carries with it the duty of executing law and this is the sole official trust of officers in their executive function. I believe that any movement on the part of a few citizens to relieve them of the responsibility that their oath of office has placed upon them or that even has a tendency to relieve them of such responsibility, in the long run, will hinder rather than help the execution of law.

Therefore, my conviction is that it is an unwise policy for a few citizens in any locality to undertake the execution of our prohibition laws, apart from the local officers and administration. On the surface this plan seems at times to bring good results, but we fail to note the bad results brought as well. In the first place, when the citizens employ outside force, the regular officers and executive administrators feel that they are largely excused by the people from doing what their oath of office pledges them to, and if they are not disposed to do their duty, they will be only too glad to shift this responsibility. In the second place, when detectives are employed by individuals, their evidence is not respected by the courts and jurors as it is when the detectives are employed by the administration and paid with the people's money. In the first place, he is the agent of one or more individuals in the second place, he is an authorized officer of the municipality or county and every court will give more heed to his evidence.

Again when individuals employ detectives to ferret out liquor lawlessness, the officers afterwards when there is liquor lawlessness will play hands off and wait for the individuals to again employ detectives. While the liquor sellers or manufacturer know this detective is not constantly on the ground, and if one has been at work in August, he will not likely be working in the same community for the next five or six months. They are on the watch for the detective, but are not afraid of the officers. On the other hand, when the officers are vigilant and faithful, the would-be liquor violator is always afraid because he knows that the regular officer is on the ground, with eyes and ears open, all the time.

My experience in using detectives has not been altogether satisfactory, and observation of the way some juries have treated their evidence is altogether unsatisfactory. I have observed further that those communities in North Carolina that put the responsibility upon the officers and do not use detectives, except as the administration uses them, have the best conditions prevailing, and are the freest from liquor manufacturing and liquor selling.

On the other hand, we have cases in our State where the citizens have made up large purses, employed detectives and lawyers, apart from the local government, to execute their law and their conditions are bad, possibly no better than they would have been had not the detective been used. Having viewed this question from every standpoint, I have concluded that the detective employed by the individuals and paid by just a few is a hindrance rather than a help in the execution of our law.

One might ask them, what is the remedy when the officers do not stand for the enforcement of the law, and the citizens are like the officers? As I see it, the only remedy for such a condition is agitation and education. I can very readily conceive of a true citizen standing for license, but I cannot conceive of any true citizen standing for lawlessness. I believe when our people are taught the duties of citizenship that we will find in every county and town in North Carolina, men, who have the true spirit of patriotism and loyalty to their county, that will stand for the execution of all law, not considering the fact that any violator of law is an enemy to the State, a hindrance to good government and a curse to the community; and being such, they will have patriotism and courage sufficient to report and to punish such an individual. As I see it, North Carolina at this time must have a great deal of education through the press and pulpit, showing every citizen that his oath commits him to uphold law and that means the tearing down of lawlessness.

# Storekeeper Says:

"A lady came into my store lately and said:

"'I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were astonished. They thought that there was smell and smoke from an oil stove, and that it heated a room just like any other stove. I told them of my experience, and one after another they got one, and now, not one of them would give hers up for five times its cost.'"

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

The lady who said this had thought an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now—she knows.

Do you really appreciate what a New Perfection Oil Cook-Stove means to you? No more coal to carry, no more coming to the dinner table so tired out that you can't eat. Just light a Perfection Stove and immediately the heat from an intense blue flame shoots up to the bottom of pot, kettle or oven. But the room isn't heated. There is no smoke, no smell, no outside heat, no drudgery in the kitchen where one of these stoves is used.

THE MORNING STAR

Published by the WILMINGTON STAR COMPANY [Inc.) Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under act of Congress, March 2nd 1874.

FULL ASSOCIATED PRESS REPORT.

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months, $1.50 for three months, 50 cents for one month, served by carrier in the city or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards or thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line, or if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, society meetings, political meetings, etc., will be charged under same conditions except so much thereof as may be of news value to readers of the paper.

Advertisements discontinued before expiration of contracts are charged transient rates for time actually published. Payment for transient advertisements must be cash in advance. Contract advertisers will not be allowed to exceed their space at same rates or advertise anything foreign to their regular business without extra charge. Advertisements to occupy special place will be charged for according to position desired.

TELEPHONES: Business Office No. 51; Editorial and Local rooms No. 61. Call either if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and if acceptable in every other way, they will be invariably rejected unless the real name of the author accompanies the same, not necessarily for publication but as a guarantee of good faith.

Saturday, August 20th, 1910.

They want to throw Uncle Joe overboard but none of them seem to want to be the first man to take hold of the old Tartar.

An Oregon man has built himself a house in a tree top. No doubt he did so in order to have rooms for rent to standpat Republicans who are taking to the woods.

A lady writer says: "Any girl contemplating marriage must make a philosopher of herself if she would be happy." In spite of that advice, girls will go right on being artists in order to make their husbands happy instead of themselves.

The people ought to be as tired of a sectional tariff as they are of a high tariff. The Republican process of bleeding one part of the country for the benefit of another part deserves as much condemnation as its graft feature providing for special interests.

Col. Roosevelt, feeling sore over his defeat for temporary chairman of the New York State Republican convention, now says he don't know whether he will attend the convention or not. It might be a little risky for him to try to attend. The doorkeeper might not be willing to pass him in.

Speaker Cannon in an intevview a few days ago said: "My Ananias Club makes Roosevelt's look like a Wednesday night prayer-meeting at a fashionable church on a Summer night, compared with the human race." At the time Uncle Joe spoke he had no idea that President Taft would discredit him with his Ananias Club by making him his Republican Jonah.

A dispatch from Oyster Bay to the New York Journal of Commerce says: "Roosevelt is not to endorse Taft now." The Colonel is sawing wood and saying nothing. He is exhibiting a great deal of caution how he endorses a President whose violation of his campaign pledges has resulted in widespread Republican insurgency. While keeping quiet the Colonel is preserving his own reputation and letting Taft go his own route.

The Chatham Record on Wednesday began its thirty-third volume. That staunch and representative North Carolina paper has lived 32 years and throughout its career has rung true to North Carolina. The Star congratulates Editor H. A. London upon the beginning of another year of journalistic usefulness and wishes for the Record a perpetual existence, if it is to be equal in every respect to what it has been under his able management.

"Most anybody can be fooled," so a philosopher remarks. Quite true but it is not necessary for a North Carolinian to be fooled but once by the Republican party, even though it now pretends that it will be respectable when Morehead and Butler get through scrubbing it. By the way, the Democratic party did more to make North Carolina Republicanism clean than Morehead or Butler could ever hope to do. A thick lather of the "grandfather clause" took off lots of the black spots. Ain't it so?

A Mrs. Smith, of New York, masqueraded in man's clothing for five years and played off like she was "a man among men." She writes her experiences and her opinion of men summed up briefly would lead us to infer that she does not consider that men are Sunday School scholars. Probably she met up with the men who wanted her to spend all the money for treats and hardly ever came across for the dope. No doubt she got in the wrong crowd, anyhow, and judged all men by the company she kept during her masquerade.

## THAT WONDERFUL TARIFF.

From every stump in North Carolina we will soon be deluged with a lot of dope concerning the wonders of the Aldrich-Payne-Smoot tariff bill and the alleged surplus that it has produced The Republican spielers will tell about the surplus but they won't mention that most of it has come from new revenue taxes at home and not on account of the tariff. Millions of dollars have been collected by the Government from the new corporation tax and other internal revenue sources but it will all be claimed for Taft's so called "best tariff law the country ever had."

The fact is, the new tariff law is not producing the results that the Republican party should boast of. There is considerable financial worry in Washington but we don't hear much of it from politicians. Neither will we hear any statement of the fact from Republican sources that the trade balance of the United States has almost totally disappeared. However, the general stagnation which continues in this country tells that tale, even if Republican politicians do not tell it.

Treasury statistics for July show that imports broke all records with the exception of 1907 and outran exports by $2,818,883. In March our receipts for foreign merchandise footed up $19,000,000 greater than the value of our shipments, or exports, while in February we bought from Europe $5,500,000 more goods than we sold to foreigners. In other words, four months of the current year have brought larger imports than exports, so that our trade balance for the seven months of this year is only $1,666,364 against the usual average of $200,000,000. It means that under Republican prosperity we are not doing any big export business with foreign countries but practically have lost our trade balance, since we are nearly striking even on trading with our foreign customers instead of putting an excess in our pockets.

The only hope we can hold out to Republican campaign spielers is that our export business will soon make a great bound forward. The South's cotton will soon be on the market and then will commence a great export movement that will help out the situation. Cotton is one of the great export resources of this country and constitutes about 40 per cent of the entire export business of the United States. In other words, the Cotton States of the South furnish little less than half as much export business as all the other States of the Union combined.

Again, it is only necessary to remark that prosperity comes from what we sell and not from laws passed by any Republican Congress. When Europe is in a position to buy largely from us and our exports go forward in large quantities, we have prosperity. We have it in spite of the Republican party. We have panics, depression and hard times often in spite of all the tariff laws with which the suckers of this country can be gulled.

Only that man who sells more than he buys is prosperous.

## QUESTION OF PUBLIC HEALTH.

It is to be regretted that there is to be further delay in definite, conclusive action upon the question of the surface closets and the remedies that have been sought in this connection as a matter of public health. If the ordinance as drafted by the Board of Aldermen is not what it should be and the Board of Audit and Finance regards the tax too high; if, as has been quoted, "a two-horse wagon can be driven through the ordinance," it is high time that representatives of tehse two concurrent bodies should get together and do something final. A matter of public health is too vital to permit of procrastination and quibbing over mere technicalities and differences of opinion on details as to just how the reform should be worked out.

We are not advised as to why the special committee on sanitation from the Board of Aldermen did not see fit to apear before the Board of Audit and Finance at its meeting this week and give all the information necessary, but that is neither here nor there. No time should be lost now in getting together and drafting or amending an ordinance or ordinances to remedy the admitted evil. The special committee is doing good work; it can do even better if it will permanently and conclusively settle the question of a proper regulation of the surface closet nuisance now and forever.

Says a contemporary: "Ex-President Theodore Roosevelt has named so many twins he hardly knows what to name two others." Well, he could name them Buff and Rebuff.

Be clever to strangers. It gives a character of cleverness to a town. People like to visit a city with cordial people greeting them on all sides. A city's people make the character of their city.

President Taft is quoted as saying that he would be delighted to see Col. Roosevelt active in politics. Recent circumstances are sufficient to provoke Col. Roosevelt to add President Taft to his Ananias Club.

The subdivision of the Chadwick Farm, one mile east of Wilmington, is into 3, 5 and 10-acre farms and will be sold at auction August 23rd. **

## WHY NOT COME SOUTH?

The New York Journal of Commerce calls attention to the fact that large areas of farm lands in the southern and eastern parts of New York have become so worn out that a living cannot be made upon them. "Hence," that paper says, "many farms are deserted and land has depreciated in value from 25 to 75 per cent., while men and money have been drawn away to the West and to the cities."

The Department of Agriculture has issued a circular on the opportunities for rehabilitating the farm lands in New York. The bulletin says "buckwheat and hay have been grown on these lands and are removed from the soil and practically nothing has been returned." As a result the soil has become unproductive. Crops are small and in many cases insufficient to support persons living on the farm. The Department of Agriculture is introducing soil restoration methods and is satisfied that "if good soil conditions are restored the land is well adapted to the keeping of live stock, particularly to sheep raising, to general farming, especially hay and potatoes, and to the growing of certain kinds of fruit."

Why don't the young farmers of New York come to North Carolina where they can get all kinds of soil, either virgin or improved, which will produce abundantly all the products named, and, besides, produce such money crops as cotton, tobacco, corn, peanuts and the truck products with which eastern North Carolina is largely feeding New York and other great northern markets? Why should young men stick to the old, worn-out farms instead of coming South where two or three crops can be raised on the same land each season?

Probably we can partially answer our own question. It is because no systematic effort has been made by North Carolinians to attract just such settlers as might leave the poor farms of New York and eastern states. If the Northern farmers who are not able to scratch a living out of the ground of the worn-out lands of the North, only knew what the opportunities are in North Carolina, we believe they would come into our midst and settle. They don't know, however, and we don't take any steps towards informing them in the proper way.

## STRANGE THINGS IN POLITICS...

Many strange things occur in politics, one of the strangest having been the nomination of Hiram Johnson, California's insurgent candidate for Governor. He swept the deck in the primary election a few days ago, carrying the State by 50,000 majority over the regular Republican candidate.

The nomination of Hiram Johnson as an insurgent, which is another name for a Republican who favors reform in the interest of the people, revives the political history of his father—the notorious Greve Johnson, a Sacramento lawyer, of unsavory reputation all over California and the Republic in his day. For many years Greve Johnson, according to the New York World, was one of the most notorious representatives of the Southern Pacific railroad in politics and in the courts during the palmy days of Collis P. Huntington, a railroad magnate, who did not hesitate to do anything in political or railroad deals. That same Greve Johnson, who did all kinds of questionable legal work, in spite of an unsavory past, regularly served in the State Legislature from his county and through the money influences behind him finally landed in Congress. However, the people of California did not keep him there very long.

The New York World referring to the notorious Greve Johnson, the railroad politician and tool of Huntington, thus refers to him: "A cynical, thick-skinned politician, with acknowledged railroad connections, his name was a by-word throughout the State." The son now follows his father not as an unscruplous politician and "tricky" lawyer, but as a reformer—Republican insurgent.

The New York World speaking of singular political coincident:

"In the present campaign it is Greve Johnson's son, Hiram Johnson, who has headed the Republican insurgent movement and led the fight against the Southern Pacific machine, which in Huntington's time was and today still is controlled by William F. Herrin, the Democratic lawyer at the head of the railroad's legal department in California. In his attitude toward the railroad and its political agents Hiram Johnson has been as bitter and unsparing as his father was servile and unscrupulous. For a parallel case, but one perhaps less striking, it is necessary to go to fiction and read the chapters of railroad politics in New Hampshire as told by Winston Churchill in "Mr. Crewe's Career."

Truly, all the interesting things are not to be found in the novels. No doubt American politics furnish about as many incidents quite as strange as Hiram Johnson's case. We are not sure but that we can find quite a few in North Carolina.

All is lost save Oyster Bay.

An Ex-President who has further ambitions to gratify or notoriety to maintain can give lots of trouble by crossing the path of those whose ambitions are only halfway satisfied.

## CURRENT COMMENT.

Says the Wilmington Star: "A circus is soon to visit Greensboro. Won't a circus be sort of a tame affair in the Convention City." Oh, we don't know about that—the Democrats didn't meet here in state conclave this year!—Greensboro News. (Rep.)

What would you think of a candidate for Congress who appointed years ago negro school committeemen in this section. Well this was one and these negroes visited white school teachers, some of whom were the best of ladies, and also signed their vouchers in order they would be paid. Of course he is a Republican.—Eastern Carolina News.

North Carolina is spending a great deal of energy in trying to make the Republican party respectable. This recalls the story of a rather green youth from the remote rural districts who went to the circus for the first time. After gazing in open-mouthed wonder at a giraffe for some minutes he turned away in disgust and said: "Oh, shucks; there ain't no such animal."—Pensacola (Florida) Journal.

Mr. Roosevelt thinks that if he makes a trip to California next spring, and if the Southern Commercial Congress can arrange to meet at some place through which he is likely to pass, at th time he happens to be passing there, he might make it a speech. Once a reporter attended a colored conference. In the course of time he got up to leave. They asked nim what his hurry was and he said he had to go and turn in his copy, so the paper could go to press. "This conference is adjourned till tomorrow morning," said the presiding officer, "when our friend, the reporter, can meet with us again."—Asheville Gazette News.

Abe Middleton, a peaceable and accommodating negro who lives on his farm near Kenansville, was once the Republican party in Duplin, and he played his cards well. Abe and his followers were the "balance of power" in Duplin county and by their coalition with the Populists our county went fusion for two terms. Abe made no noise against the Democrats, but he was smart enough to get more out of the trade than any other Republican or Populist. Yes, no one can deny that Abe was the "Dictator" of the Republican party which is dead as a door nail and shrouds are ordered for the funeral.—Eastern Carolina News.

Probably the best thing the recent State Convention did was to abolish the Unit Rule which has given scope to so much ring rule and bossism in the past. Every fairminded man knows and always knew, how unfair was its workings and how it divided the party into factions that should not have existed. The Unit Rule has not only killed many leaders and no one thing has been such an important feature in making the Republican party the minority party in this state. The new plan gives every man, no matter how humble, an opportunity to aspire to office, which is a sacred right, and no so-called leader or ringster can railroad a measure or name a candidate. In future, the people will name their candidates and the minority will no longer be kicked from the ranks of the party and nobody will have any kick coming.

The party is to be congratulated upon this progressive movement for it may not bring recruits but it will insure the solid vote of the party for every candidate thus ending factional fights and resulting in complete harmony in the ranks.—Mount Airy Leader. (Rep.)

Sheriff Jones has taken the proper course with regard to the distillation of brandy, about which there has been some talk; also action, for one or two parties have been to see the deputy collector about securing government license for operating a brandy distillery. Some of these men, as has been told in this paper, had been to see an attorney and were advised that brandy could be made "without gain," whatever that may mean. Seeing that some of these men were in the notion of going to work, Sheriff Jones consulted with Attorney-General Bickett at Raleigh. His letter has been received and is short and to the point. He says emphatically that the operation of a distillery is in clear violation of the State prohibition law. Such being the case Sheriff Jones will proceed to prosecute every person who tries it. Some of these prospective distillers asked Judge Boyd about it when talking about securing a government license. He told them the license would keep the government officers off them, but while he had not recently read the State prohibition act, he was sure it was in violation of the law. The fallacy of the argument can be seen in the fact that if brandy can be made—and not even sold—that whiskey can be made and that the whole State would soon be engaged in making liquor.—Greensboro Record.

The convention at Clarkton made a wise selection when the delegates nominated Hon. J. A. Brown, of Chadbourn. It was a graceful act on the part of Mr. Greer to withdraw in favor of Mr. Brown, as also on the part of Mr. McRackan to move to make the nomination unanimous. We are generally opposed to dark horse nominations, but this is an exception. Both of the announced candidates had strong opposition, and to have named either would have created dissatisfaction. Just at this critical time in the history of our party in the Sixth district, it is vitally important that we pour oil upon the troubled waters and do all possible to restore that peace and unity so essential to Democratic success. There is not a better man in county, district or State than Hon. Joseph A. Brown, and his nomination will not only gratify every Democrat, but paralyze the Republican party. We do not believe that Mr. Brown will have opposition even from the Republicans, for he has the confidence, respect and admiration of every one. He will bring to bear the same clear mind and untiring energy that built up his own Chadbourn, and made that once wild wilderness blossom as the rose. His election means progress, and the support of all and everything tending for the uplifting of his people and their moral elevation. We believe that had the Wrightsville Beach convention nominated Mr. Brown for Congress in the Sixth district, opposition would have vanished like mist before the noonday sun, and the whole people would have rallied to his support.—Whiteville News Reporter.

The invitation which the Exchange extended last week on behalf of the people of this county to have the proposed Wilmington-to-Charlotte Highway gathering in Laurinburg has been formally accepted by the Charlotte Observer on behalf of the guests-to-be. The Rockingham Post, having first originated the idea, is requested to say, "when."

We acknowledge receipt of a letter from the Post asking among other things what date will suit us. It is necessary that we have here in Laurinburg at once a meeting of all the people who are interested in this movement or in good roads generally. We must get ready for we are going to have a great meeting and this thing is going to soon take shape and the accomplishment of the proposed highway will be within view. Laurinburg is going to entertain this gathering and is going to do it well. This meeting will be one of men who mean business for this whole thing is a sound business proposition through and through. We therefore call a meting of all the people of this county who feel the slightest interest in the matter to be held in the court house next Saturday afternoon at 4 o'clock. Now there is much to be done within a short time and it is necessary that an organization be at once formed to take the matter in hand and secure this meeting for Laurinburg and make ready for it. It is earnestly hoped that no man will overlook this call or treat it with indifference. This meeting Saturday afternoon will mean much for our town and county. Let every man who reads this article or hears of it come from wheresoever he may reside in this county and be on hand promptly at 4 o'clock.—Laurinburg Ex., Aug. 18.

# VALUABLE PROPERTY SECURED

**Pocomoke Co. Closed Deal Yesterday for Tract of Land Near Hilton Bridge—Consideration $24,000 —Rumored Company will Erect Plant.**

The Pocomoke Guano Company, a corporation of the state of Virginia, with headquarters in the city of Norfolk, yesterday purchased a tract of land consisting of several hundred acres on the west side of the North East branch of the Cape Fear river and only a short distance from the line of the Seaboard Air Line, more commonly known as the Carolina Central, the consideration being $24,000.

The property lies on the west bank of the North East river and is opposite the old Harnett home, the same being known as the "Forceput" tract and contains about 400 acres, excepting and reserving, however, those parcels of land formerly conveyed by Adelaide Evans, and subject also to the terms and conditions of a lease to the firm of Newton & Williamson.

At the present time the Pocomoke Company has a large warehouse on the water front in Wilmington and it is rumored that a fertilizer plant and large warehouses are to be erected on the property purchased. Messrs. Meares & Ruark are local counsel for the company and when asked what use the property was going to be put to replied that they had nothing to give out.

Wilmington is rapidly becoming one of the most important points on the South Atlantic coast for the distribution of fertilizers. The Seaboard Air Line already has several large warehouses and, as was announced several weeks ago, another warehouse is to be erected. In addition to the material brought here as a distributing point, several large fertilizer factories do an enormous business and it is on the increase each season.

## WILL DO HOSPITAL WORK.

**Graduate of University of Budapest Expects to Locate Here.**

Dr. Leo W. Kahn, a young physician of Philadelphia, will enter upon his duties as an assistant at the James Walker Memorial Hospital the first of the week and will do hospital work until the State Board of Medical Examiners convenes in Raleigh during the month of January, when he will stand the examination to practice his profession in this State.

While his home is in Philadelphia, Dr. Kahn has spent the greater part of his life in Europe and attended the University of Budapest for six years, from which institution he got his M. D. He then came to this country and recently completed two years of special work in surgery at the University of Pennsylvania.

Dr. Kahn is very much interested in the Jewish people and while a student at the University of Pennsylvania spent several hours each evening teaching at a school for poor Hebrew children.

It is the intention of Dr. Kahn to locate in Wilmington and he is very much impressed with the city.

## MRS. KEYES DEAD.

**Young Wife Passed Away in Wilson Yesterday From Typhoid Fever.**

Late yesterday evening a telegram was received in this city announcing the death of Mrs. Stewart Keyes, who passed away at 6 o'clock at her home in Wilson after a short illness from typhoid fever. The message was received by Mrs. W. H. Newell, Jr., who is a sister of Mrs. Keyes.

Mr. Keyes travels for the firm of Einstein Bros., of this city, and he and Mrs. Keyes made their home during the past year at Capt. W. H. Newell's, on Walnut street, and only left here about three weeks ago for Wilson.

Mrs. Keyes was just 20 years of age. She is survived by her husband and an infant daughter. The bereaved husband and relatives have the deepest sympathy of friends both here and in Wilson.

**Mayor MacRae on Vacation.**

Mayor Walter G. MacRae, accompanied by his nieces, Misses Mary and Jessie Vann, and his nephew, Mr. Henry Vann, will leave this morning for a well deserved vacation which he will spend in New York and other places of interest in the North. Never better pleased than when giving pleasurel to others, Wilmington's genial chief executive will have a happy congenial party and many friends wish for all a delightful sojourn. They go from Wilmington to Norfolk where they will take the Old Dominion steamer for the trip up through the Bay. They will be gone for a week or longer and while the mayor is away, Alderman S. J. Ellis, mayor pro tem. will have in hand the reins of city government.

**Chief Schnibben Off.**

Chief Charles Schnibben, of the Wilmington Fire Department, best in the South and directed by the best chief in the South, left last night for Syracuse, N. Y., where he will attend the National Convention of the Association of Fire Chiefs, of the United States. Chief Schnibben attends this great meeting each year and former visits have been so fruitful of good results that the chief was recently granted a vacation by the Police and Fire Commission to attend this meeting. He will be away about ten days, Assistant Chief Monroe being in charge of the department in his absence.

# TO BE OPEN DURING THE FALL

**Seashore Hotel Not Closed Before October 1st—Cafe Will Remain Open During Winter—European Plan.**

Captain Edgar L. Hinton, manager of the Seashore Hotel, has announced that the hotel will remain open during the entire month of September and if the patronage should justify it the time will be extended, although after the first of September it will be conducted on the European plan. The dining room of the hotel will be closed after the first of next month and meals will be served at the Seashore Cafe.

This will be the first season that the Seashore Hotel has ever been kept open during the Fall months, a season that is generally regarded as the most beautiful time of the year on the beach. The cafe will be open during the entire Winter and oysters roasts served and fish suppers. After the first of October Capt. W. M. Wells will be in charge.

While the hotels on the beach are not crowded, the number of people is unusually large for this time of year and it is expected that a large crowd will be on hand next week as the Junior Order meets at the beach.

The decision of Capt. Hinton is the first move towards making an effort to lengthen the beach season. Hotel men have always complained about the beach season being so short but it is believed that in a few years good crowds will remain there until late in September.

## CUTTER EXPECTED TODAY

**Seminole Reported to Have Left Norfolk For Her Home Port.**

Information was received yesterday by Mr. Geo. R. D'Orange, of the Revenue Cutter Service, that the revenue cutter Seminole left Norfolk at 3 A. M. Friday morning for her home port and is expected to arrive this afternoon. Mr. D'Orange is attached to the Seminole and has been spending about two weeks here awaiting the arrival of the cutter.

The cutter has been thoroughly overhauled and repaired for her Fall and Winter cruising which begins within the next few weeks. Some three weeks ago she left the Norfolk shipyard for Wilmington, but was forced to put back into Hampton Roads on account of a mishap to her dynamo. The repairs were made at the Newport News shipyard. Captain R. O. Crisp is in command.

## BLEWETT FALLS POWER.

**Rockingham Post Has Interesting Announcement This Week.**

The Rockingham Post of this week has the following item that will be read with interest locally:

"The expected will happen. Blewett Falls will be sold. From news received from a most reliable source the Post hears that the great enterprise on the Pee Dee will not be financed by the present holders, but will be sold.

"The sale will take place the latter part of September or the first of October, probably Monday, October 3rd. The plant is now owned by Franklin G. Brown, T. C. DuPont, E. F. Greene, C. N. Mason and Waldo Newcomer, the reorganization committee of the Rockingham Power Company. The exact date of sale will be determined on in a few days."

## "THE RANGE RIDERS"

**Selig's Great Western Picture at Bijou Today—Other Pictures.**

A big Saturday feature at the Bijou today will be the "Range Riders," Selig's great Western picture, which is sensational and exciting and will be quite appealing to those with a penchant for the great big, wild West. Other features for the large Saturday afternoon and evening audiences will include "The Road to Happiness," a sweet story of a sales girl: "Poetical Jane," a comedy film that is quite amusing, and possibly one or two other features.

**Mr. Blake's Dog.**

In regard to complaint made of a bull dog belonging to Mr. R. E. Blake and reported to have bitten a child of Mr. Dixon, it was stated last night by Mr. Blake that he doesn't own a bull dog and never has owned one or a dog that is vicious. Mr. Blake says that the dog complained of is a Shepherd house dog and has never been known to have given trouble before. He very much regrets that he should have been criticised for owning such an animal and this correction is gladly given in justice to him.

**Dr. Dreher High Gun.**

Several very good scores were made by members of the Gun Club in yesterday's shoot, Dr. Dreher leading with 46 out of a possible 50. Close behind him was Mr. J. E. Taylor with 43. The other scores were as follows: D. T. L. Capps, 36; J. F. Jarman, 26; Dr. Wessell, 35; L. Clayton Grant, 37; R. R. Bellamy, 27; Dr. Russell, 27; Norwood Orrell, 20.

# TWELVE MONTHS ON ROADS

**Man Who Abandoned Wife Found Too Late It is a Serious Offense. Took Appeal But No Bond.**

Recorder Furlong has but little patience with a man who abandons his wife and demonstrated this very plainly yesterday when he sentenced Preston White, a negro, to twelve months on the county roads for abandonment and non-support. The negro decided he would take a chance in the higher court and gave notice of an appeal. He was unable to give the $200 bond required and was committed to jail to await trial at the term of court which convenes the latter part of September.

Amelia Bradley, a dusky damsel, while endeavoring to protect Roberta Mock, charged with the larceny of several of the feathery tribe, the property of J. C. McLamb, got herself in trouble. She testified that Roberta Mock, was not at the house where the chickens were brought but that she was there; that the chickens were given to her to sell and she converted them into cash and turned it over to the party who brought them. In view of the fact that she had so much to do with the affair a warrant was sworn out charging her with the crime and in default of bond she was committed to jail to await trial this morning.

After hearing the evidence in the case of George Norris, who was charged with cutting Noah Jones, the Recorder ordered the warrant changed to an affray and the men were taxed up with the cost. The evidence went to show that Jones was beating Norris, who got his knife out to defend himself. Jones was badly slashed about the face, back and arms. The trouble occurred several night ago on Kidder's Hill.

Norris was defended by Herbert McClammy, Esq., and Jones was represented by L. Clayton Grant, Esq.

Six negro women were in court for creating disorder about 11th and Princess streets Thursday night, having been arrested by Officer George. Four of them were charged with disorderly conduct and Ida Fields and Susie Haywood with conducting disorderly houses. The cases were continued until this morning.

Hattie Jones was found guilty of drawing a razor on Mary Costin but owing to certain circumstances connected with the case the Recorder only taxed the woman up with the cost. E. S. Southerland was separated from $5 and the court cost for assaulting a negro hack driver.

## A. T. T. COMPANY STOCK

**Messrs. J. B. Farmer & Co., Offering Limited Issue For Sale.**

Messr. J. B. Farmer & Co., have an announcement of interest to investors in another column of today's Star. A limited amount of the treasury stock of the American Telegraph Typewriter Company is being placed on the market and the firm recommends it as an investment security of splendid promise. It is worth investigating at any rate and Mr. Farmer would be pleased to talk with any one interested in this class of securities. The offices of the firm are 502 Southern Building.

**Called Back Home.**

Mrs. J. H. Lumpkin, of Selma, Ala., who has been a guest at the Seashore hotel for the past week, received a telegram yesterday morning to the effect that the Hotel Albert, the largest hotel at Selma, had been burned. She is the owner and proprietor of the Hotel Arcadia and owing to the changes that the fire would probably bring about she cut her trip to the Beach short and left on the first train for Selma.

## EXERMINATING TICKS

**Pasture May Be Freed by Keeping All Stock Off.**

Washington, D. C., Aug. 20.—The month of August lends itself well to the eradication of cattle fever ticks where a pasture rotation plan is used By vacating a pasture during this month and keeping it vacant until July 1 of next year it may be freed of ticks, and if no tick-infested animals are allowed to enter after July 1 the pasture will remain free. The United States Department of Agriculture advises farmers in the tick region to take advantage of this favorable time so far as practiceable.

Pastures from which live stock is removed for a sufficient time become free of ticks by a process of starvation, as the ticks can not live to maturity if they are unable to get upon animals. The time required for all ticks to die after the stocwy has been removed from infested fields and pastures varies considerably, depending on climate, season, and weather conditions Experience has shown, however, that the period from September 1 to July 1 is sufficient, and this appears to be the most convenient time.

The advantage of vacating a pasture for the period named is twofold. Not only is the pasture freed from ticks, but its disuse during that time will probably cause less inconvenience and expense than at any other season, and it will be benefited by the rest and will have a better growth of grass the following summer. In some sections where pastures are utilized throughout the winter ,to vacate would probably necessitate feeding the stock, unless the farmer is situated so that he can keep his stock on one pasture while another pasture is kept vacant. But it is also true that beginning with September there will be a more abundant supply of rough feed about a farm which can be utilized. August is a most favorable month for making a start toward freeing premises of ticks by the method suggested.

The animals should of course be free of ticks when they are again turned on the pasture in July. Where the owner has a small number of cattle, greasing or spraying them with Beaumont crude petroleum is a good way to rid them of ticks. When the numnumber of cattle is large or when a dipping vat is convenient it may be more practicable to dip them.

Full information as to how to get rid of the ticks, including directions for the preparation of dips and sprays, may be obtained free upon application to the Bureau of Animal Industry, Department of Agriculture, Washington, D. C.

# ROAD COMPLETED TO BOLIVIA

**Company Made Point Within Time Allowed by Act—One Year to Get to Southport for Bond Money.**

The road of the Town Creek Railroad and Lumber Company is slowly advancing towards Southport and there appears to be but little doubt about the road being completed within twelve months. In fact it will have to be completed in twelve months for the bond money to be available.

One provision of the law was that the railroad should be completed to Bolivia by the 3rd of August and the task was easily accompushed. Just at present no work is being done on the road but the company has got from now until the 3rd of next August 1911, to complete the job and if Southport is entered before the year is out the thirty thousand dollars voted for the road will go to the railroad company.

Bolivia is only twelve or fifteen miles from Southport and it is only this link that separates the town of Southport with its magnificent harbor from the outside world. The road is not a makeshift to be used primarily for hauling logs but is well constructed, the fills being good and wide and heavy rails are being used. When completed the road will be adequate for any ordinary amount of business for years to come. No trains are operated over the road yet.

## DAIRY PRODUCTS.

**Their Value as Food—Some Observations Along Line.**

St. Paul, Minn., Aug. 20.—The products of the dairy are perhaps the most useful articles included in the human diet. A meal made up of dishes into which no product of the dairy cow enters would not be such as to inspire "the turnpike road people's hearts I find lies through their mouths, or I mistake mankind." Take away the butter for the bread, the cream for the coffee and the porridge, the shortening in the crust and the biscuits, the milk in the gravy and in the puddings, the cream for the dessert and the various kinds of cheese which please and satisfy, then take away the cup of milk for the little one and the meal that would be left would be neither tempting nor nutritious.

The health of our people depends so much upon an adequate supply of pure dairy products that even a scarcity is always attended by suffering and death.

Butter is sometimes referred to as a luxury. This is a mistake. Butter is not a luxury but one of the necessities of life, and its composition is such that nothing can take its place and perform the same functions. It is nature's product compounded in the maternal organism and the process is in accordance with nature's law, a law which man can imitate but cannot understand. Man can manufacture from various fats and oils a substitute for butter but it cannot take the place of nature's product because man cannot understand the needs of the human body as nature understands them.

The animal body is developed best when nourished by foods which have been little manipulated by man and machinery. Dairy products are, as a rule, consumed nearly as nature produced them. This is particularly true with milk upon which the growing body must depend. In the case of butter only a small percentage of other products are added to the fat extracted from the milk. Man only manipulates it in order to put it in convenient shape for use It can still be termed a product of nature designed as only nature can design for use as food by the human body.

## MEXICAN INDEPENDENCE

**Centennial Begins on September 1st. Programme For Week.**

Mexico City, Aug. 20.—Below are just a few of the many features that will attract so many people to the capital of the Mexican republic next month, the occasion being the great one hundredth celebration of her independence.

## PROF. ALBERT S. HILL

**New Director of Music at State Normal and Industrial.**

Greensboro, N. C., Aug. 18.—Prof. Herman H. Hoexter who had charge of Vocal Music at the State Normal and Industrial College asked to be released that he might spend a year or more studying Music in Germany. This request of Prof. Hoexter was granted by the Board of Directors, and Prof. Albert S. Hill of Atlanta, Ga., has been elected director in this department. The authorities of the College feel that they are very fortunate in securing the services of Mr. Hill, as he is a musician with broad culture and large experience.

Prof. Hill graudated at Lebanon College, Ohio, in 1899 with the degree of Bachelor of Arts. He was later given the degree of Master of Arts by this institution. After graduation Prof. Hill went abroad and was accepted as a special student in the University College of the University of London where he remained for four years. While in the University of London, in addition to his work in Music, he pursued courses in English, European History, Drama, Psychology, Ethics, Philosophy, Pedagogy, etc.

Prof. Hill seriously began his musical education at the age of twelve years with Madam Lathrop Lewis of Ohio. After two years of study he became the pupil of Errain of New York City and remained a student of his more than two years. He took a course in Harmony and Sight Singing at the Metropolitan College of Music. This course was intended especially to prepare him as a supervisor of public school music and as a conductor of choral societies. In 1889 he began to study Music with Professor Alberto Randegger of London, England, and continued with him for four years. Prof. Randegger considered him sufficiently efficient in Music to employ him as his assistant for a considerable time. At the suggestion of Prof. Randegger he studied in the Royal Guild School of Music of London, and was at this time a member of the Prima Vista Choral Society.

On returning to the United States Prof. Hill took piano lessions with Dr. William Mason and in some special lines of vocal work with Prof. Leo Kofler. Along the lines of oratorio singing, musical intepretation, and history of music Prof. Hill has had definite instruction.

After completing his work as a student Prof. Hill was first employed as director of public school music at Toledo, Ohio. At the end of a service of two years in this position he went to New York City where he conducted various choral societies and musical clubs and did a large amount of private teaching. He has also done work in teachers' institutes and summer schools in Tennessee, Pennsylvania, Kentucky, and Ohio. Prof. Hill comes to the State Normal and Industrial Colege very highly endorsed.

**You Must Buy Now or Pay More Money—We Told You American Telegraph Typewriter Stock Would Rapidly Advance to Par and Above. The Upward Movement Starts August 22d, When stock Advances to $6.00 a Share.**

STOCK GOES TO $6.00 NEXT MONDAY, AND WILL THEN ADVANCE BY LEAPS AND BOUNDS TO PAR AND ABOVE. DELIVERIES ON OUR ORDERS FOR 5,000 MACHINES SHOULD BEGIN OCT. 30, AND NO ONE CAN TELL THE FIGURE STOCK WILL BE SELLING AT THEN. TODAY YOU CAN PURCHASE SHARES AT $5.00. MONDAY THEY WILL COST YOU $6.00, AND LATER MUCH MORE. THE MAN WHO BUYS IN THE BEGINNING ALWAYS MAKES THE BIG PROFITS. THIS IS YOUR LAST CHANCE TO GET STOCK AT $5.00, THE LOWEST PRICE AT WHICH IT HAS EVER BEEN OFFERED.

14 per cent. and over can be earned FOR YOU by your money as well as by the banks in which you deposit it. Why don't you make it do it? The latest report of the Comptroller of the Currency shows that the National Banks of the United States earned over 14 per cent on their total capitalization.

One of the largest and strongest banking houses in New York City (name on request) persistently offered to furnish the money needed by the American Telegraph Typewriter Company (offer on file in our office)—They know their money would earn more than 14 per cent. They are alive to the tremendous profits this company can earn.

The American Telegraph Typewriter Company has orders on hand today for over 5,000 machines from

The United States Government.
The New York Central,
The Long Island Railroad,
The Pennsylvania Lines,
The McAdoo Tunnel
The New York City News Association—to be placed in the offices of the following New York newspapers: Herald, Evening Telegram, World, Evening World, Times, Tribune, Press, Mail, Globe, American, Evening Journal, Das Morgen Journal, Staats Zeitung, Evening Post, New York Herald, Brooklyn Daily Eagle, Morning Telegraph and the Associated Press.

The American Telegraph Typewriter sends a message over either telegraph or telephone wires (without interfering with telephone conversation at the same time) and immediately transcribes it in plain English on a typewriter in Chicago, St. Louis, New Orleans, or at any distance whatever four times as fast as the "Morse" system of dots and dashes, without requiring the services of a professional operator It is a perfect telegraph instrument.

No enterprise has been more profitable than the telegraph and telephone business. $100 INVESTED IN BELL TELEPHONE RETURNED OVER $200,000

The American Telegraph Typewriter is the greatest achievement of engineering skill. The fortunes that will be made by those interested cannot even be approximately estimated—so great is the demand in the commercial world on account of the time-saving and economical features of these machines.

They have been in daily use on the Long Island Railroad (Pennsylvania system) over a year. The Electric Superintendent of the Road says: "We find the system economical, flexible and rapid, and consider it invaluable in railroad service." THE ROAD HAS ORDERED ADDITIONAL MACHINES.

These machines are not sold, but rented for telegraph purposes at $150 a year. The cost to manufacture is less than $50—profit the first year $100—200 per cent. Thereafter the yearly rental ($150) is all profit, less cost of maintenance, which is nominal.

On the installation of 5,000 machines—orders for which are on hand today—the permanent income of the company will be $750,000 yearly, 15 per cent on the price of stock today.

On the installation of 20,000 machines—which we can easily place this year with the necessary factory facilities—the permanent income of the Company will be $3,000,000 yearly—60 per cent on the price of the stock today.

On the installation of 300,000 machines—which is a low estimate of the requirements of the railroads,, the permanent income of the company will be $45,000,000 yearly—900 per cent on the price of the stock today.

**Stock $5.00 to.day.**

For the purpose of enlarging the factory, meeting expenses and immediately building machines to fill orders, a special allotment of full paid, non-assessable, participating stock is being sold at $5.00 per share, par value $10.00. Bankers, lawyers, manufacturers, business men and prudent investors in all walks of life are eagerly buying these shares. The allotment is almost exhausted, and the company has now purchased material and completed arrangements for the immediate manufacture of 5,000 machines. They should be ready for delivery by Oct. 30. Then you will see the AMERICAN TELEGRAPH TYPEWRITER IN ACTUAL USE AT THE NEW PENNSYLVANIA STATION (FINEST RAILROAD DEPOT IN THE WORLD); ON THE NEW YORK CENTRAL RAILROAD; IN THE OFFICE OF PRACTICALLY EVERY NEWSPAPER IN NEW YORK CITY; then everybody will be clamoring for stock, and we dare not predict the price at which it will be selling. The wise investor will buy now.

Come to our office. We have seen the machine in operation, the original orders from the big railroads, News Association and the U. S. Government. You will appreciate the wonderful money making power of this stock.

If you cannot call at our office mail your order. In every event investigate this unequalled opportunity. We are anxious to prove our claim.

**Only To-Day Left to Buy Stock at $5.00.**

**J. B. Farmer & Co., 502 Southern Bldg., Wilmington, N. C.**

Gentlemen—Kindly send me your literature giving proof of the large earning powers of stock in your company, and why big dividends should be paid almost immediately.

## TEDDY LAYS CORNER-STONE.

**Speaks Briefly at Garden City, L. I., On Way Home.**

Garden City, L I:, Aug. 19.—Theodore Roosevelt stopped at Garden City on his way from New York to Oyster Bay today long enough to lay the corner-stone of a building which is being erected here by a publishing firm. The stone was ready to be laid when he arrived, so that all he had to do was to spread on the mortar.

Colonel Roosevelt in his speech said that the country was the people's proper place to live. "I feel that everything which tends to spread the population from the cities, and to give fresh air to the men and women especially to the children counts for just so much more in the development of our civ.c life," he said.

Omaha, Neb., Aug. 19.—Additional returns from Tuesday's primary election indicate that Mayor James C. Dahlman, of Omaha, won the Democratic nomination for governor over Governor Shallenger by a safe majority. Returns from 1,113 precincts out of 1,645 in the State give Dahlman 24,949 and Shallenger 22,652. The remaining precincts unheard from would have to give Shallenger a five to one vote to overcome this lead. Mayor Dahlman has already started on his election campaign through the State.

Culver, Ind., Aug. 19.—By saving the life of F. Thompson, of Atlanta, Ga., while both were swimming in Lake Maxinkuckee today, Isabel Fuller, 12-year-old daughter of E. R. Fuller, of Richmond, Va., became the heroine of a nearby Summer resort. Thompson was seized with cramps 300 feet from a pier. The girl, a good swimmer, was near him. She supported him until a boating party went to their rescue.

If you are troubled with pimples, blackheads, acne, barber's itch, blotches, freckles or other skin disease or blemish, now is the time to cure it with Hokara.

This pure and simple skin food is being introduced in Wilmington by J. Hicks Bunting Drug Co., at the low price of 25c for a liberal sized jar.

It contains no grease or acid, is cleanly to use and is a true food and nourishment for the skin, cleansing and clearing it in every pore, making it soft, white and beautiful.

If Hokara does not do even more than is claimed for it and give perfect satisfaction return the empty jar to J. Hicks Bunting Drug Co., and they will refund your money. If you have any skin trouble, you cannot spend 25c to better advantage than for a jar of this skin food. Larger size 50c.

If the skin trouble is caused by impure blood, or if the bowels are inactive, use Hokara Blood Tablets. They cool and cleanse the blood and regulate the bowels in a natural way.

## COTTON MILLS TO CLOSE.

**Fifty Thousand Operators Will Be Idle This Mont".**

Boston, Mass., Aug. 19.—Millions of spindles in the cotton mills of the country will be idle for periods varying from one week to sixteen days during the latter part of this month and the first half of September. Mills in New England employing 50,000 operators have already posted notices announcing a further curtailment and it is understood that similar action will be taken by many other concerns.

In the Southern States more than 3,000,000 spindles will be idle one week in September. A short time policy among numerous cotton plants in New England will be continued during September according to the present outlook.

Asheville, N. C., Aug. 19.—The man who shot and seriously wounded Miss Mary Culberson, a nurse at the Morganton Insane Hospital last night, is Joseph Upton, a former attendant at the hospital. He was discharged for unruly conduct two weeks ago. It is stated that Upton was at one time engaged to Miss Culberson, but the engagement was broken by the latter a month ago.

Miss Culberson's condition tonight is such as to make her recovery doubtful.

It is probable that Upton, who attempted suicide after attacking the young lady, will recover from his wounds.

## PROGRESS ON CANAL.

**Five and Half Miles Opened to Construction Fleet.**

Washington, Aug. 19.—Five and a half miles were opened to navigation for the sand and rock fleet of the Atlantic division of the Panama canal last week, according to the issue of the Canal Record, which reached this city today. This section, added to the five miles at the Pacific entrance, which is open to vessels of all kinds, brings the total of the canal now in actual use up to ten and a half miles.

The division just opened is not completed but it has a channel fifteen feet deep at its shallowest point and a width of 100 feet at its narrowest point. The dredges are constantly working on this part, broadening and deepening it to the full width of 500 feet and the full depth of forty-five feet.

## PATTEN'S SEAT IS SOLD.

**Confirms Wireless Report—Says He is Chiefly Interested in Education.**

New York, Aug. 19.—James A. Patten, the Chicago grain and cotton operator, disdaining to talk of financial conditions, said today that he was chiefly interested in university matters in Chicago and that the work was taking up most of his time. Mr. Patten was a passenger on the steamship Adriatic, in today from Europe. He confirmed the wireless report that he had sold his seat on the Stock Exchange.

"Why there is not anything to make a fuss about in regard to the sale," said Mr. Patten. "I simply gave word before leaving the country, that if the bid for the seat should go to $70,000 the seat should be sold. Well, when the bid reached that amount the seat was sold. I can't do a thing without it being put in the newspapers."

## SHE REFUSED TO MOVE

**Had to Be Evicted From Home She Sold—Woman Worth $30,000,000.**

New York, Aug. 19.—Miss Dellaripha Richardson, said to be worth more than $30,000,000, was evicted today from the home in which she had lived since her birth 50 years ago, because she would not surrender possession to the man to whom she had sold it. A city marshal finally had to chop his way through the front door.

Miss Richardson is one of the wealthiest women in the world When her father, Joseph Richardson died in 1897, she inherited the bulk of his fortune, and has since lived frugally with a maiden cousin. Although she sold her home, she would never allow the buyer on the premises and he had to make his plans for re-building it from outside observations.

While the marshal's men piled the frayed, old fashioned furniture on the sidewalk today, Miss Richardson followed them about protesting that their action were outrageou and that she would complain to Mayor Gaynor.

## PROPOSED MEMORIAL TO BILL NYE TO BE $5,000 BLDG. AT STONEWALL JACKSON TRAINING SCHOOL

**Committee Appointed by North Carolina Press Association Decides That the Lamented Humorist Shall be Honored in a Practical Manner—State Newspapers Delegated to Receive Contributions to the Cause.**

The committee appointed at the recent meeting of the North Carolina Press Association to take in the matter of a State memorial to Bill Nye, met in Salisbury, Wednesday, July 6th, in formal session, and after hearing all the propositions before it unanimously decided:

1. That the memorial to the lamented humorist shall take the form of a memorial building, to be one of the group and a part of the Stonewall Jackson Training School, generally known as the State Reformatory, in Cabarrus county, near Concord.

2. That the building, furnished and equipped as the trustees of the institution may direct, to the best advantage for the rescue of errant boys, shall cost not less than $5,000, and shall be known as the "BILL NYE MEMORIAL BUILDING."

3. That the following newspapers be designated to receive and acknowledge subscriptions to the fund for this building, said funds to be transmitted promptly to the treasurer, JOHN M. Julian, Editor of the Salisbury Post:

The Star, Wilmington.
The Observer, Charlotte.
The Evening Post, Salisbury.
The Citizen, Asheville.
The News and Observer, Raleigh.
The News, Greensboro.
The Uplift, Concord.

4. That while the committee believes that this memorial should be distinctively North Carolina's tribute to the lamented man of letters, it deems it wise, in order to ensure the prompt success of the movement, and further to permit the friends of Bill Nye outside the State an opportunity to contribute to this movement, that contributions from outside the State should be gratefully received and acknowledged, while not solicited.

The committee believes further that it made a wise and happy selection in the form of this memorial; that nothing it might have conceived would have brought greater joy to the heart of the gifted, kindly man whose memory it is designed to perpetuate than the great work of making useful citizens of wayward boys, and that were he present with us in the flesh today it would have the stamp of his approval. Furthermore the committee bespeaks the hearty co-operation of the brethren of the press especially, and all good citizens generally in this undertaking. It is a labor of love—one that has already been too long neglected, to the shame of North Carolina. Let us put our shoulders to the wheel and show to the world what North Carolina can do for the man it delights to honor.

(Signed)
JAMES M. CAINE, Chairman,
JOHN M. JULIAN, Treasurer.
R. W. VINCENT, Secretary,
ROBERT M. PHILLIPS,
ARCHIBALD H. BOYDEN,
Committee.

The Star will be glad to receive and acknowledge from day to day any contributions that may be made to the above fund.

Wilmington women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in a Wilmington woman's words:

Mrs. Laura E. Hand, 809 Ann street, Wilmington, N. C., says: "I am willing to recommend Doan's Kidney Pills, as they did me a world of good. I suffered from dull, nagging backaches, and had such severe pains across my loins that I was prevented from sleeping well. The kidney secretions also caused me annoyance. When I saw Doan's Kidney Pills advertised, I procured a box from Robert R. Bellamy's drug store, and they did me more good than any other remedy I had ever taken. The backache ceased, my kidneys became normal, and I could go to bed and obtain a full night's rest."

## NO NEW FACTORS IN COTTON

**Market Was More or Less Nervous and Irregular Yesterday, Awaiting Weather and Crop Reports. Closed Quiet.**

New York, Aug. 19—The cotton market was more or less nervous and irregular today, but after an early decline showed rather an easier tone, wit hthe close steady net unchanged to 8 points higher. The market opened steady at a decline of three points to an advance of three points a couple of the very late deliveries being higher, while more active months were generally unchanged to three points lower.

Cables were disappointing, official advices containing unsettled weather in the southwest and after the opening active prices here sold off to a net loss of about two to six points under scattering liquidation and local bear pressure. But there was nothing in the early news to indicate any actual break in the Texas drouth, trade interests were buying early setback and following posting of the western belt forecast and the official Texas weather details, the market worked up to a net advance of seven to 13 points on covering by recent sellers and some fresh buying for long account. There was, however, no material broadening of demand on the advance and the absence of general support encouraged a renewal of local bear pressure as soon as the more timid short interest had covered as a result of which prices eased off to about the closing figures of last night for the new crop positions in the later trading. Near months were relatively firm late in the day as there were few sellers of either August or September and as shorts in these positions are still more or less nervous owing to the failure of the increased new crop movement in the Southwest to cause liquidation by the bull leaders. The official weather reports showed more rain in Texas than yesterday, but the precipitation was almost entirely confined to the northern part of the State and the western belt forecast was for nothing more than threatening or partly cloudy weather. Southern spot markets officially reported early were generally unchanged.

Receipts at the ports today were 9,722 bales against 4,519 last week and 2,514 last year. For the week 38,000 bales against 11,301 last week and 14,398 last year. Today's receipts at New Orleans were 532 bales against 357 last year and at Houston 3,212 against 2,321 last year.

## REVIEW OF COTTON FOR WEEK

**Prices Have Moved Irregularly Influenced by Conflicting Weather Reports—Speculation on Texas Crop—General Conditions.**

New York, Aug. 19.—In a purely weather market prices have moved irregularly influenced by conflicting reports regarding the weather in Texas. Rumors have been circulater of free rains in Texas but much of the time they have lacked confirmation. Of late, however, scattered rains have been officially reported in the central and southern portions of that State, where they were badly needed and though it is believed that the precipitation was too light and too late to materially benefit the plant there has been considerable liquidation and also more or less short selling.

There are some who contend that any damage that the crop in Texas has sustained has been discounted in the price. Rains in the eastern section of the belt have in most cases continued to report improvement in the prospects. Some well known and usually well informed Alabama interests claim that there has been a wonderful improvement in situation east of the Mississippi. Meantime the movement of the new crop is considerable and demand for actual cotton mills continue small. It is believed by not a few that ere long the pressure of the new crop will have become heavy enough to weigh down upon the various markets of the country unless the spinning demand increases materially. On the other hand, however, the Texas crop news has been of a tone to encourage excellent buying and at times prices have rallied sharply. Very many express the opinion that the plant in Texas was irreparably demaged to a serious degree by the protracted drouth. A local authority issued a report on Wednesday, the 17th instant, stating the condition as of August 11th at 73.2 per cent. This showed a decline in the condition since July 25th of 3.2 per cent. as compared with a condition of 70 per cent. last year, and of 83.7 two years ago. Banking interests of New Orleans issued a crop estimate putting the yield in Texas at only 2,800,000 and the total crop at 11,520,000 bales. A local crop estimate was issued of under 11,000,000 bales. Trade reports from various parts of the country continue to note improvement in the situation. At Philadelphia and Boston the demand for yarns has increased at an advance in price. Western dry goods reports have been favorable. In the local market the demand for various descriptions of goods has continued to broaden. Today there was an early decline on further Texas rains, weakness in Liverpool, selling by room traders and liquidation. Later a rally occurred on bullish crop reports from the Southwest, bull support and covering of shorts.

## THE GRAIN MARKET

Chicago, Aug. 19.—Wheat and corn prices fell off sharply today largely influenced by accumulated supplies, the decline 7-8 to 1 3-8 in wheat and from 3-4 to 1 1-8 in corn. Oats also sagged, dropping off 1-4 to 5-8 while provisions advanced all along the line.

## REACTION ON STOCK MARKET

**Depression More Pronounced on Market Yesterday—Harriman Issues Weak—Report of Smelting Company a Feature.**

New York, Aug. 19.—The reactionary undertone which characterized yesterday's stock market became more pronounced today. Trading was in small volume, the overtures being the smallest save one thus far this week. At odd times the entire list seemed under pressure, but more often the points of weakness were the Harriman issues, Reading and United States Steel. An incipient boom in Wabash shares was checked by denials of an oft-repeated "deal" in which the system was supposed to play an important part.

Stock exchange sentiment has veered from its mild optimism of the early week to a fair degree of bearishness and for this change of feeling the political outlook is largely if not wholly responsible.

Stocks grew increasingly heavy in the afternoon with a generally lower price level, but the closing was slightly more active with moderate recoveries in Reading and Union Pacific.

The day's most interesting financial exhibit was the annual report of the American Smelting & Refining Company, which reported net earnings for the fiscal year ending April 30th last of $7,508,000. This was but a moderate decrease from the previous year and rather favorable on the whole considering the adverse conditions which have so long prevailed in that branch of industry. Bank clearings for the week show a loss of 25 per cent. compared with the same week last year.

The bond market was irregular and dull. Total sales par value aggregated $1,237,000. Total sales for) the day were 499,600 shares.

## DUN'S OUTLOOK FOR TRADE

**Business Sentiment Improves and Situation Appears Stronger.**

New York, Aug. 19.—R. G. Dun & Co.'s weekly Review of Trade tomorrow will say:

While trade contraction continues, business sentiment improves and the basic conditions underlying the situation appear stronger.

While quietness still prevails in most every department of the iron and steel market there has been practically no further decline in quotations. The general opinion appears to be that the lowest point has now been reported and that any change occurring from now on will be toward a higher level. Production of pig iron is in about the same volume as a week ago, but buying shows further contraction, although at the expense of a reduction in stocks in the hands of the fabricating interests, while new orders in some lines of finished steel are said to exceed those of the same time for the previous month and fair sized orders were placed for rails.

The tone in the dry goods markets is better, especially with jobbers and selling agents but business is still of limited proportions. Cotton goods and cotton yarns hold firm with buying showing more breadth. The week's sales at Fall River reached 360,000 pieces or double the amount of the restricted output of print cloths, while sales of 2,500 bales of standard drills for India was the largest business with the far east, China markets being dull and present prices above the views of the Red Sea buyers. Business on woolens and worsteds is of a more limited character although there is an agreement regarding values. The trend of production is still much below normal and there is a general desire on the part of the producers to avoid accummulations.

Many shoe manufacturers have completed contracts on Fall goods and are now doing little owing to lack of supplementary fall orders. The hide market is less active and the advanced prices demanded of late have checked the demand. There is some improvement in leather and increased sales have been made in certain descriptions.

## COTTON MARKET YESTERDAY.

**Prices Toy of Weather Reports—Bulls Pin Faith Upon Drouth.**

(Special Star Telegram.)

New York, Aug. 19.—Prices today have been the toy of weather reports form Texas, where rain has fallen at several points. These reports have declined prices, as they are noted, and advanced them as they were discredited, or rather accepted as being of an inadequate relief for the dry section. This is the talk of the market which is steady and local in its dealings.

The bulls pin their faith upon the drought and assert that the lateness of the season even should rains occur precludes much benefit from them. August and September show notable strength and the later positions after regaining the decline of the morning closed at about yesterday's price. The market is sensitive with considerable confidence on both sides,

## COUNTRY AND CITY LIFE.

(Communicated.)

I am not aspiring to be an author nor do I accuse myself of being capable of treating this subject fully, but being one who has knowledge of the advantage and disadvantage of both spheres of life, I will endeavor to give a brief statement of one's life in the city and on the farm. Although a person may see his mistake in leaving the dear old farm, the home of birth, I do not believe in one counting his past misfortunes, but considering them only for his future benefit and success. Nevertheless the human heart feels a relief as it unloads the burdens and cares of the life in the busy city, and silently meditates on the happy boyhood days that he spent on the honest farm. No doubt he is happy in his mansion in the city which Almighty God has blessed with a sweet little wife and baby. However so comfortably and pleasantly situated one may be in the city, the noise of the dashing street cars or the busy factories can never take the place of the chimes of liberty and freedom which rang into his earlier life from the old plantation bell.

## SOME GOOD FARMING.

**New Forage Plant—Some Excellent Yields on Fine Lands.**

(Special Star Correspondence.)

Rocky Point, N. C., Aug. 18.—One of our farmers here is experimenting with a new forage plant mixed among his field peas. It looks and "examines" the old time cocklebur, and is badly in the supremacy over the peas. He says it beats vetch and oats as a cover crop. Now 5 1-2 feet high and no telling how much higher it will go.

There is some good farming done on Rocky Point. On "Moorefields" land that has been in constant cultivation for 200 years, Mr. William A. Brown has 18 acres in cotton promising 18 bales already and the crop has, average season, one month more to fruit. Mr. Brown in addition has fancy breeds of hogs, prominent among them the "Durocred" that are now foraging and laying on fat on whippoowill peas that will run to frost, then peanuts and Haman potatoes. He will slaughter 5,000 pounds pork. There is a friendly rivalry between himself and brother, Mr. Thos. J. Brown, who has eight acres cotton from present indications will yield 15 bales. His hog prospect is equally as good and they are now on soja or Soy beans, of which he has a succession. That crop has more protein and flesh forming properties, so the "Progressive Farmer" states, than any other grain crop. Mr. Brown has field peas, peanuts and sweet potatoes to finish up with. Both of these gentlemen farmers have a sufficiency of old corn and N. C. hams, middlings shoulders, "hog-round" and to spare. A plenty of these kinds of lands on Rocky Point. Yet there's someties more in the man than in the land.

## JURY TO TRY BROWNE

**Illinois Legislator Charged With Bribing—Four Weeks.**

Chicago, Aug. 19.—A jury to try Lee O'Neal Browne, Democratic minority leader of the Illinois Legislature, for the second time on a charge of bringing Representative Charles W. White to vote for William Lorimer for United States Senator was sworn in today by Judge Kersten in the criminal court. It required four weeks to procure the jury owing to the disclosures of tampering with veniremen.

Washington, Aug. 19.—Major Gen. Thomas H. Barry, who has just been succeeded as commander of the Department of California by Brigadier General Tasker H. Bliss, will arrive in Washington next Thursday on his way to West Point to become superintendent of the Military Academy. This will be the first time in more than a quarter of a century that the academy has been headed by a major general.

Portland, Me., Aug. 19.—At the completion of their fourth day's run here today two of the Munsey motorists found their scores considerably diminished. The Staver-Chicago was penalized 169 points for being late and for work on a broken spring and the Inter-State was penalized 62 points for work on a broken spring and the Inter State was penalized 62 points for work on the transmission. The other cars came through Boston with perfect scores.

Bristol, Tenn., Aug. 19.—Alfred Taylor, defeated for the Republican nomination for governor of Tennessee, answering a rumor that he would not support Benjamin Hooper, the nominee of last Tuesday's Republican State convention, today said: "I never did bolt the nominee and it is too late for me to begin. I shall give Capt. Hooper the same support he would have given me. There is not a man in the State I can vote for with more cordiality."

Newport, R. I., Aug. 19.—Rain allowed but little progress in the all-comers tournament for the lawn tennis singles championship today. No match was finished during the day. In the two principal fifth round matches of the day Maurice E. McLoughlin, the youthful Californian, was leading J. D. E. Jones, of Providence 7-5, 6-4; 1-3, and F. C. Colston, of New York, led C. R. Gardner, of New York 2-6, 6-2; 6-3, 2-6.

Indianapolis, Aug. 19.—The special committee named by President T. L. Lewis, of the United Mine Workers, to make a report on the subjects before the special convention was still in a deadlock tonight. The sessions are executive, but it is reported that the delay in making a report is due to a failure to agree on the amount of an assessment for the strikers.

Washington, Aug. 19.—The entire Castro family apparently has been ousted from Venezuela. A dispatch to the State Department today from the American legation at Caracas stated that 46 relatives of former President Castro had been expelled from Venezuela and sailed today for Porto Rico

## WIN TAFT-DRAPER CUPS

**American Took Honors From Spanish In Boat Races.**

Marblehead, Mass., Aug. 19.—In what was considerable San Sebastian weather and favorable to the foreign yachts, the three American Sonder boats had no difficulty in again defeating the Spanish visitors today in the third race for the President Taft and Governor Draper cups. The Harpoon, owned by C. F. Adams, second, threw a second cable around the principal trophy and another win will give her permanent possession of the President Taft cup. The Beaver was second and the Cima a close third. Should the Harpoon win tomorrow's race, which will be over a windward and leeward course, the contest for the President Taft cup will be settled. The other boats will then meet on Monday for the Governor Draper cup, which is to be awarded on points.

The elapsed time of today's race follows: Harpoon C. F. Adams, second, (American) 2:59:37; Beaver C. H. W. Foster (American) 3:03:22; Cima, Guy Lowell (American) 3:04:13; Chonta Louis Arana (Spanish) 3:08:43; Mosquito II, V. L. Doriga (Spanish) 3:21:52; Papoose, A. Echeguren (Spanish) 3:26:11.

## MIKKELSEN EXPEDITION.

**Five Members of Crew Arrive at Port in Norway.**

Christiana, Aug. 19.—Five members of Capt. Mikkelsen's expedition which was wrecked during the Winter on the coast of East Greenland, arrived today at Aalesund, Norway, on board a small motor boat. The Mikkelsen expedition left Copenhagen June 20th, 1909, on the Danish Arctic ship Alabama, to search for the bodies of the Erichsen Greenland expedition, two of whose members perished in November 1909.

The returning explorers report that Capt. Mikkelsen and the engineer of the Alabama proceeded to Norfolk Greenland, after the vessel was wrecked. The body of one of the Erichsen's companions was found on the ice, but it is supposed that Erichsen's body was carried out to sea by one of the ice floes.

## THE COLUMBUS STRIKE.

**Retaliatory Steps Taken by City Council—Reward Increased.**

Columbus, Ohio, Aug. 19.—As a retaliatory move toward the Columbus Railway and Light Company which refused to arbitrate the strike of its car men, the city council tonight took steps towards equipping the municipal light plant for the purpose of selling electric current for commercial light and power usage.

Although the council for months has been opposing Mayor Marshall in all his proposals for municipal reforms, the members tonight adopted resolutions, commending him for his attitude during the strike.

A reward of $500 was authorized for the capture and conviction of John F. Brady, the leader of the car company's men, who, is wanted on warrants, charging him with shooting two women and a child. This increases the reward for Brady to $1,100.

## SURRENDERED TO FARMERS

**Arkansas Criminal Gave Up and Asked For Surgical Aid**

Hot Springs, Ark., Aug. 19.—Weak from loss of blood, Oscar Chitwood, participant in Wednesday's pistol fight, in which Sheriff Jacob Houpt was probably mortally wounded. Chitwood's brother killed and himself shot through the arm, surrendered to two farmers today in Ragweed Valley and asked that he be taken back to Hot Springs for surgical aid. The fusilade of Wednesday followed an attempt to take two Chitwoods into custody on charges of horse stealing.

## NEW YORK DEMOCRATS.

**State Convention in Rochester Late in September—Gaynor.**

Saratoga, N. Y., Aug. 19.—By unanimus vote the Democratic State Committee decided here tonight to hold the next Democratic state convention at Rochester, September 29th. A resolution expressing regret at the attempt on the life of Mayor Gaynor and hope of his speedy recovery was adopted by a rising vote.

Hot Springs, Ark., Aug. 19.—Oscar Chitwood, who with his brother, engaged in a pistol duel with Sheriff Houpt, at the court house here Wednesday, was captured tonight in the mountains near Hot Springs. Because of an anticipated attempt at mob violence the whereabouts of the ma was not made known.

San Francisco, Aug. 19.—The Call today says A. G. Spalding, of San Diego, and formerly of Chicago, is in the lead for the United States Senatorial advisory vote. Figures compiled by The Call gives Spalding 41,142 votes against 38,900 for Jno. D. Works, insurgent.

Richmond, Va., Aug. 19.—It was announced today that the Richmond branch of American Locomotive Works will close down at the end of next week for about a fortnight. At the same time it was further announced that orders for 34 engines from four different roads came in today.

Mainz, Germany, Aug. 19.—Fifteen soldiers, who were practicing blasting operations during the maneuvers of pioneering troops at Sechtsheimerberg today, are reported to have been killed. Information has reached here that they were buried by a premature explosion of dynamite.

Redding, Conn., Aug. 19.—A daughter was born today to Mr. and Mrs. Ossip Gabrilowitsch at Stormfield the home of the late Samuel L. Clemens (Mark Twain) Mrs. Gabrilowitsch was before her marriage Miss Clara Clemens, eldest daughter of Mark Train.

## CAMP PERRY RECORDS.

**National Rifle Association of America —The Contests.**

Camp Perry, Ohio, Aug. 19.—The National Rifle Association of America held its annual meeting tonight at the Recreation Tent of the 26th U. S. Infantry, Lieut. Gen. J. G. Bates, U. S. A., retired, the president, presided.

The report of the secretary, Lieut. Albert J. Jones, stated that there were 2,563 entries in the four days matches, which closed yesterday and that the membership this year included 18 civilian rifle clubs, 13 college clubs, 22 school boy clubs and 44i annual members.

The secretary particularly emphasized the need of government aid in the work of extending marksmanship skill to the citizenship of the country and the expediency of the members urging Congressmen to secure the passage of the pending bill referred to the committee on military affairs providing for the issue of arms and ammunitions to civilians, colleges and school boys clubs and an annual appropriation of $100,000 to carry on this work.

At the conclusion of the meeting the medals and trophies were won in the matches of the week were awarded.

The five individual revolver matches of the National Rifle Association were mon as follows:

Slow fire, 75 yards, C. E. Orr, Albion Rifle Club, 83.

50-yards, times fire, C. E. Rising, Connecticut, 90.

15 yards rapid fire, Leroy L. Yon Colorado, 96.

25-yards rapid fire, E. G. Reising, 93

The grand aggregate honors of these revolver matches was won by C. E Orr, Albion Rifle Club, who scored 1,815.

E. G. Reising was second at 1,812; Leroy Lyon third, 1,807.

The Evans Skirmish match was again won by the United States Infantry team, the victor in 1909.

The Tennessee National Guard came in second and the Seventy-fourth New York third.

Lieut. G. C. Brant, Ninth U. S. Cavalry, with a 68, captured the annual members' championship match.

## GAYNOR OUT OF DANGER.

**Even His Secretary Was More Hopeful Yesterday.**

New York, Aug. 19.—Propped up with pillows Mayor Gaynor sat up in bed for more than an hour today reading and talking to his seven-year-old daughter, Ruth. From the child's lips he heard the latest news from his country home at St. James, Long Island.

After a most satisfactory day marked by the last blood test that will be taken Robert Adamson, the Mayor's secretary, said tonight that the surgeons had assured him that the Mayor was practically out of all danger.

New York, Aug. 19.—Bertram Pond, who, when pursued as the murderer of Mrs. Mary Umsechied, of Homestead, N. J., shot himself through the head on Wednesday night, died today. He shot Mrs. Umsechied as she held her six-year-old child in her arms. He was 55 years old and had served time for shooting at a woman at Middletown, N. Y.

Berlin, Aug. 19.—An order was issued today calling for the most stringent inspection at German ports of all vessels from Odessa, Russia, owing to the outbreak of cholora in South Russia.

**How to Own The Oliver Typewriter For 17c a Day**

You don't have to draw on your Bank Account when you pay on the Penny Plan.

You need not disturb your Dollrs. Keep them at work earning interest!

We offer our newest model, the Oliver Typewriter No. 5—fresh from the factory—for Seventeen Cents a Day.

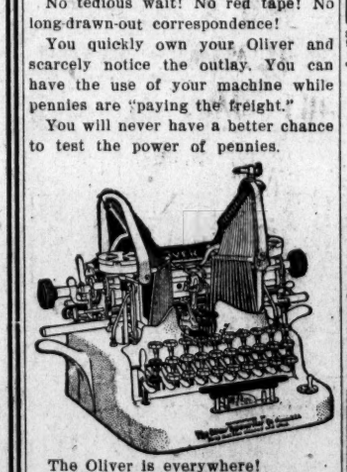
The plan is printed in "black and white" on the Application Blank below.

Simply fill out the blank, attach the small first payment, send it in, and on comes the Oliver!

No tedious wait! No red tape! No long-drawn-out correspondence!

You quickly own your Oliver and scarcely notice the outlay. You can have the use of your machine while pennies are "paying the freight."

You will never have a better chance to test the power of pennies.



The Oliver is everywhere!

It's the universal typewriter. Reels off real work with the ease and speed demanded by this mile-a-minute age. Wherever you turn—in Business in Offices, great or small—in the quiet of the Home—in the roar of the Railroad and Telegraph service—in the seething maelstrom of modern Newspaperdom—in countless kinds of service—it's the sturdy, strenuous Oliver that's "making the wheels go round."

The **OLIVER Typewriter**
The Standard Visible Writer.

You need your Oliver now. It's yours almost for the asking. The biggest hundred dollars' worth in America—for Seventeen Cents a Day!

Send along the Application Blank, with a small first payment of $15 as an evidence of good faith.

Your check is good—or send draft, postoffice of express money order.
